SECOND ENDORSEMENT on CO HDQS 52ND AAA BRIGADE ltr FMAA-PP 600
of 27 Oct 1955

From: Commandant THIRD Naval District
To: Chief, Bureau of Yards and Docks

Subj: Special AAA Facilities - FY 1955 Program - New York Site No. 53; vicinity of Leonardo, N.J.

1. The representative of the Army Command having responsibility for the construction of the special AAA facilities previously requested to obtain and submit to the District Public Works Officer a waiver of the safety distance requirements as outlined in paragraph 4 of the enclosure (1) of the basic letter.

2. By First Endorsement the Commanding General of the First Army has indicated the opinion that such waiver is not required in the circumstances.

3. The proposed construction will be upon Army property. Final plans for construction have been completed and any change would entail considerable expense to the Government as well as cause delay in this program of the Army. It is, therefore, recommended that the Bureau obtain the concurrence of the Bureau of Ordnance in the opinion of the Commanding General of the First Army that no waiver is required or, if it be considered necessary, that the Bureau of Ordnance issue said waiver as soon as possible in order that the issuance of the Permit to the Army for the use of Navy property may be expedited.
