1. Reference (a) outlined alterations that would have to be
accomplished before the subject permit could be terminated.
As a result of a conference at the site on 21 January 1965
with representatives of this office and the U.S. Army Corps
of Engineers, there was an understanding reached that the
alterations required (estimated cost \$500) would be
accomplished by this Command at no cost to the U.S. Army.
This Command, therefore, has no objection to the termination
of the permit since the premises have been vacated by the
U.S. Army and left in a satisfactory condition.
