The Landing of a Pleiadea

The Age of Enlightenment

“By the year 2001 AD the last remaining barrier of spaceflight will have been overcome. An interstellar starship carrying 1,000 scientists from the planet Myton, in the star cluster Pleiades within the constellation of Taurus, will arrive on Earth landing on a raised landform that was once a part of the Atlantis continent, situated in the Caribbean Sea.

Each astronaut, highly trained in their scientific disciplines will disembark and remain on Earth, to help prepare our world society for its next development—that of becoming the thirty-third linking member of an Interplanetary Confederation!

The arrival of our Space Brothers will signal the real beginning for an age of logic and reason—a spiritual renaissance for all mankind on Earth. The year 2001 is a ‘millennial point-in-time’—an astrophysical cycle in which science, psychology, philosophy and politics, the essential ingredients for a new paradigm, are coming into parallax.

We, therefore, as representatives for the planet Earth, do, in the name, and by authority of the good people of this planet, publish and declare our intentions to participate in the preparation for the landing of interstellar vehicles and the resulting contact and alliance with an advanced, intelligent people in the year 2001. Our purpose is one of enlightenment, the exchange of cultural heritage, and the much needed spiritual knowledge, and scientific evidence substantiating the evolution of a Homo sapiens into Homo spiritualis!”

Pleiadean Starship on Earth in 2001 AD - A 21st C

We Are Not Alone in The Universe!

“Captain Star, we are about to emerge into the atmosphere of Earth. We are tracking the various spacecraft, moving through the atmosphere of the planet. None have been alarmed, nor are they in any way endangering our descent. Our coming to planet Earth is a peaceful venture. We keep uppermost in our minds that we are brothers of the Creative Infinite Intelligence!”

The islands of the Caribbean Sea became plain in view to the crew of Starship Hope. Within a matter of seconds, the spacecraft silently settled down on a large expanse of land that had been especially prepared for the landing of a Pleiadean starship. A city had been built, which was an exhibitory forum inhabited by selected individuals from around the world, who were specialists in their various disciplines of knowledge.

A great pavilion had been completed in which representatives of all nations assembled. These persons were attired in costumes of their different cultures, so that the emerging Muons would feel welcomed.

The first exclamations from the assembled people of Earth, when they saw Starship Hope in its beautiful proportions, was one of stark silence and a certain awe and respect for the domed craft. It appeared in some respect as a large flame and rose more than 500 feet from the ground for this millennial event in 2001 AD.

A wide staircase was seen to descend and the Star Travelers from the planet Myton exited two by two. Three hundred representatives of the International Cabinet, the World Government of Earth, stood and in one voice spoke: “Welcome, Friends and Brothers of Planet Myton, to our Earth.” In one accord, the crew members of Starship Hope responded with: “Welcome, Earth people and our Brothers.”

A 21st Century Cosmic Event!

The Millennial Event – 2001

The future landing of a Pleiadean starship on planet Earth will have important repercussions in the lives of all people. In the broad course of our history we have traversed many cycles that have had positive and negative effects on all aspects of our global society.

The millennial event of 2001 AD will usher in a new era of peace on Earth. We are waking up to the reality of human life existing throughout the universe.

The 21st century will be the acknowledgment of Spirit existing in our hearts and minds, resulting in a progressive cycle for humankind on Earth.

An Interplanetary Confederation, a Cosmic United Nations, will bring the Earth world back into the family of man, towards an Infinite Concept of Cosmic Consciousness!

“We Are Your Brothers From the Planet Myton” A Video Documentary

Half a century ago planet Earth witnessed the beginning of what has been popularized as the UFO phenomena. Since then, thousands of people from all walks of life, worldwide, have reported what they believed to be unusual spacecraft sightings. In this Video Documentary we will go behind the phenomena to reveal relevant information about the science of interplanetary space travel. The UFO phenomena is a wake-up call, preparing we earthans for the landing of spaceships from the planet Myton in 2001.

Panel Symposium Opening the Curtain to the Space Brothers

The restoration of the Interplanetary Confederation will verify the joining of our spiritual consciousness with people of other worlds, removing the illusion of our perceived aloneness in the universe. The 21st century will reflect a greater recognition that we are developing new eyes to see our connection with cosmic consciousness—the Universal Intelligence that is the real transmitter for the understanding of our progressive evolution.

Banner Procession

The Banner Procession is a highlight of the symposium. Here on this pristine, elevated plateau, the future home of the New World Teaching Center of the Unarius Academy of Science, thirty-three persons representing each of the thirty-three planets of the Interplanetary Confederation join together, displaying a banner symbolizing one of the planets. In essence, this is the golden bell announcing the restoration of humankind's contact with other planetary people, signalling the beginning of a new spiritual renaissance on Earth.

A Space Brother Speaks

“We come as representatives of the brotherhood of man, replicated in different conditions and environments but nonetheless enriched by the differences, which have become products of the successful application of the principles of life.

The richness you will sense in our ‘arrival’ is the richness of the broader consciousness carried by our people. It will reflect the humbleness of our realizations and our position as servers of humankind, for we are not abusers of humanity.

We wish to carry this information into the hearts of all people, so that they can loosen any subconscious fears of extraterrestrial humanity.

There is no fear but the fear of fear, which is the unresolved nature of past-life negative traumas!”

*The Archangel Uriel,
the overshadowing spiritual force
guiding humankind into the 21st century,
has stated firmly that
“The future of mankind
is positive and progressive!”*

Why a Spacecraft Landing on Planet Earth in 2001?
Where do They Originate From?
What Will Life be Like After the Landing?

ARE YOU READY?

Be present on Saturday, October 10, 1998, for an all-day session when the above questions will be answered in the most power-packed day and evening of your life!

The future landing of a Pleiadean starship on Earth will have important repercussions in the lives of all people for the better!

The keynote speaker, a renowned author in UFO research, supported by 44 years of publishing history of the Unarius Academy of Science, will answer many

enigmas associated with human life on other solar planets in our galaxy!

A cutting-edge forum will answer questions from the audience during this 21st Century, Millennial Event. You will see, firsthand, the Future Landing Site of Spacecraft, the Colorful Interplanetary Banner Procession, and the release of 33 white doves, signaling peace on earth!

A beautiful sunset dinner under the stars, followed by a Live Contact With a Space Brother, will leave you in a transcended and peace-filled state of mind!

Registration fee for this all-day event is \$135, including dinner.
