John Greenewald, Jr.
The Black Vault
27305 W. Oak Road, Suite 1203
Castaic, CA  91384-4520

Dear Mr. Greenewald:

This letter serves as the Bureau of Land Management (BLM), New Mexico State Office’s response to your request for agency records made under the Freedom of Information Act, 5 U.S.C. § 552 (FOIA). Your records request was received in this office on February 4, 2019.

You requested,

1) All documents regarding the research into Mr. Frank Kimbler, his collection of material in or around Roswell, New Mexico, and the contact of Mr. Kimbler to attend the meeting
2) All documents regarding the meeting(s) itself, notes, reports, etc. generated after the meeting, and
3) All emails, letters, memos, etc. that pertain to the research into Mr. Kimbler and his research.”

In accordance with FOIA requirements, the BLM has conducted a thorough search of the Roswell Field Office. Agency records responsive to your request were identified and the BLM is releasing 46 pages with no redactions. In addition, the BLM is partially withholding 3 pages containing either personal phone numbers under Exemption 6 of the FOIA (5 U.S.C. 552(b)(6)).

For those records withheld under Exemption 6 of the FOIA, Exemption 6 allows an agency to withhold “personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.” The phrase “similar files” covers any agency records containing information about a particular individual that can be identified as applying to that individual. To determine whether releasing records containing information about a particular individual would constitute a clearly unwarranted invasion of personal privacy,
we are required to balance the privacy interest that would be affected by disclosure against any public interest in the information.

Under the FOIA, the only relevant public interest to consider under the exemption is the extent to which the information sought would shed light on an agency’s performance of its statutory duties or otherwise let citizens “know what their government is up to.” The burden is on the requester to establish that disclosure would serve the public interest. When the privacy interest at stake and the public interest in disclosure have been determined, the two competing interests must be weighed against one another to determine which the greater result of disclosure is: the harm to personal privacy or the benefit to the public. The purposes for which the request for information is made do not impact this balancing test, as a release of information requested under the FOIA constitutes a release to the general public.

We reasonably foresee that disclosure of the records partially withheld would harm an interest protected by one or more of the nine exemptions to the FOIA’s general rule of disclosure.

The persons responsible for this partial denial under Exemption 6 of the FOIA are Sarah A. Westenberg, NM/OK/TX/KS FOIA Officer, and Timothy R. Spisak, State Director, New Mexico State Office, Bureau of Land Management, Santa Fe, New Mexico, in consultation with Benjamin Vaccaro, Attorney Advisor, Department of the Interior, Office of the Solicitor, Southwest Region, Albuquerque, New Mexico.

Your request for fee waiver is granted.

You may appeal this response to the Department’s FOIA/Privacy Act Appeals Officer. If you choose to appeal, the FOIA/Privacy Act Appeals Officer must receive your FOIA appeal no later than 90 workdays from the date of this letter. Appeals arriving or delivered after 5 p.m. Eastern Time, Monday through Friday, will be deemed received on the next workday.

Your appeal must be made in writing. You may submit your appeal and accompanying materials to the FOIA/Privacy Act Appeals Officer by mail, courier service, fax, or email. All communications concerning your appeal should be clearly marked with the words “FREEDOM OF INFORMATION APPEAL.” You must include an explanation of why you believe the BLM’s response is in error. You must include with your appeal copies of all correspondence between you and the BLM concerning your FOIA request, including your original FOIA request and BLM’s response. Failure to include with your appeal all correspondence between you and the BLM will result in the Department’s rejection of your appeal, unless the FOIA /Privacy Act Appeals Officer determines (in the FOIA/Privacy Act Appeals Officer’s sole discretion) that good cause exists to accept the defective appeal.

Please include your name and daytime telephone number (or the name and telephone number of an appropriate contact), email address and fax number (if available) in case the FOIA/Privacy Act Appeals Officer needs additional information or clarification of your appeal.
For your information, Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA. See 5 U.S.C. § 552(c). This response is limited to those records that are subject to the requirements of the FOIA. This is a standard notification that is given to all our requesters and should not be taken as an indication that excluded records do, or do not, exist.

In 2007, a number of amendments to the FOIA were enacted. As part of these FOIA amendments, the Office of Government Information Services (OGIS) was created to offer mediation services to resolve disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. Using OGIS services does not affect your right to pursue litigation. You may contact OGIS in any of the following ways:

Office of Government Information Services
National Archives and Records Administration
Room 2510
8601 Adelphi Road
College Park, Maryland 20740-6001
E-mail: ogis@nara.gov
Telephone: (301)-837-1996
Fax: (301)-837-0348
Toll-free: 1-877-684-6448
You may also seek dispute resolution services from our FOIA Public Liaison, Ryan Witt, at (202) 912-7562.

Questions pertaining to the enclosed records may be directed to Sarah A. Westenberg, NM/OK/TX/KS FOIA Officer, at (505) 954-2129 or blm_nm_foia@blm.gov.

Sincerely,

Timothy R. Spisak
State Director

Courtney,

It was pleasure speaking with you this morning. Attached is a pamphlet from the BLM. Although this is published by the Nevada BLM there are several other State BLM offices that have adopted it.
This is the information that I used in reference to metal detecting on public land.

Have a great day
Frank

Collecting on Public Lands

The public lands offer a broad range of outdoor activities that include collecting taxation such as fossils, petrified wood, gemstones, and artifacts, and for personal enjoyment and use. This is a summary of what may be collected on public lands in Nevada.

Collecting on public lands may be for commercial or non-commercial purposes:

- **Fossils**
- **Minerals**
- **Cultural Artifacts**
- **Animals**
- **Plants and Pine Nuts**

**Wood, Plants and Pine Nuts**

Various species of trees are available for firewood with a permit. Pine nuts may be collected, but coins and artifacts more than 100 years old may not be collected. Modern money may be collected, but coins and artifacts more than 100 years old may not be collected.

**Cultural Artifacts**

Cultural materials on public lands may not be removed, damaged, disturbed, excavated or destroyed. Their water sources are also protected. Wild horses and burros may not be harassed, harmed, collected or sold.

**Animals**

Collection of federal and state game and nongame animals, including fish, is regulated by the Fish and Wildlife Service, the U.S. Fish and Wildlife Service, and the Nevada Division of Wildlife. The public should not collect animals that are dangerous places.

**Fossils**

Various species of trees are available for firewood with a permit. Pine nuts may be collected, but coins and artifacts more than 100 years old may not be collected. Modern money may be collected, but coins and artifacts more than 100 years old may not be collected.

**Minerals**

Commercial extraction of minerals is regulated by the Bureau of Land Management (BLM) and the U.S. Department of the Interior. The BLM encourages people to purchase minerals, such as sand, gravel, gravel, cinders, topsoil and other common mineral materials. Saleable minerals, such as sand, gravel, gravel, cinders, topsoil and other common mineral materials, must be purchased by prior arrangement with the BLM.

**Violations of regulations under the Federal Land Policy and Management Act, the Antiquities Act, the Archaeological Resources Protection Act, the Nevada State Archaeological and Historical Preservation Act, and other laws may be punishable by fines, imprisonment, and forfeiture of equipment and vehicles used in the commission of the crime.**

may try to confiscate fragments from the Rowell UFO crash site. I'm one test away from proving that Rowell is ET. The government does not want that to happen.

I need as people as possible to contact the media. The event is Monday morning 10:15 any help would be appreciated. Spread the word!

The BLM called me and wants the small metal fragments from the UFO debris field delivered to their office Monday morning. The enforcement officer will be there. Help!
I don't have a huge following on facebook, so spread the word to everyone I could use the help and the support. Blm office monday morning 10:15. The BLM may try to confiscate fragments from the Rowell UFO crash site. I'm one test away from proving that Rowell is ET. The government does not want that to happen.
Here is an example of the Roswell crash site artifacts the BLM is trying to confiscate this coming Monday morning at 10:15 AM at their district office in Roswell. It was legally collected according to a BLM pamphlet distributed on several BLM sites. Google this "Collecting on Public Lands - Bureau of Land Management ", and read it. The crash site is not a historically protected site and it says that in their Resource Planning document for the BLM Roswell District. Also notice what the document specifically says "of Human origin". Now I have some proof that indicates this material may be of ET origin. I'm one scientific test away from a potential historical event, proving Roswell was really ET and not a weather balloon.

Denice Marcel
It seems so odd to me that they want to take this material away from you. What do they care? Very suspect.

James Clarkson
The obvious conclusion is that there is a big secret behind Roswell and the bad guys don't want the public to know.

Charles Connell
It is called the DEEP STATE!

Frank Kimbler
The bad guys want it brace the are afraid of the truth

William McDonald
Keep it hidden off your property. Refuse to answer the door or to accept any hand-delivered anything i.e. summonses. Make them work for it.
William McDonald
Keep it hidden off your property. Refuse to answer the door or to accept any hand-delivered anything i.e. summonses. Make them work for it. Make them have to break down the door. Make them have to put out a BOLO on you. Until a judge or magistrate threatens you directly with indeterminate incarceration, refuse to speak and/or tell them where it is. Then and only then, give it up. Lying to any badged federal agent or officer is a crime and is punishable by two years per statement. Remaining silent and refusing to answer questions is a constitutional right. Call me day or night if you need.

Oh you guys.
Kalith Smith
Funny that they want things back from a 1960s ‘weather balloon’.

Frank Kimbler
They are trying to invoke the 50 year law on artifacts but their own documents say 100 years. Conflict!

Eric Evertson
Isn’t it on private land?

Frank Kimbler
On public land and collected legally according to the law as written BT there own people.

Janet Case
That’s interesting, Frank. Especially after all this time. Didn’t you say that was BLM land? I can’t imagine that there is any rule/ law that covers the type of things you collected. Not over 100 years so not artifacts.
Janet Case

Frank Kimbler
They are trying to use a 50 year cultural artifact rule. Their own documents say 100 years. Oh also it says of human origin in all the laws!

Janet Case
I tried to find something on it without much luck. But from what I did read, it would apply to Native American archeological sites or anyplace defined as a cultural site. It looks like they’re trying to fuzzy up the lines quite a bit on this. What happens if you don’t do what they ask?

Frank Kimbler
Search warrant!

Frank Kimbler
Look up collecting on public land
Frank Kimbler: Look up collecting on public land published by the blm

Janet Case: That’s what I read, but it just doesn’t seem to apply to your case, which is very unique.

Mary Beth Atwood: I’ve got some metal shavings over here. Think they could use those?

Frank Kimbler: Just call all the media outlets and facebook like crazy.

Douglas Deckner: The people in Washington I heard have also taken historic paper and other items from people because it has historical significance. Just takes whatever they think Washington wants. I hope you notice I didn't say the government since we are supposed to be in control of that, which we are not. Get a receipt. Was this BLM or private property? The more I think about this the more it stinks. Why do they want it? By who's order? DAMN!
Frank Kimbler
I'm 1 test away from proving the Roswell crash was aliens. No kidding I have documented tests!

Douglas Deckner
Frank Kimbler You need a Lawyer! It's easy for us to say don't turn it over, we are not the ones holding it. Lawyer up.

James Clarkson
This sounds very suspect/ Do you have an attorney who could accompany you? You can assume that anything you turn over you will never see again. At a minimum have a witness with you.

Hello Jim and Chuck,

The attached document is the document to which Frank Kimbler was referring that he is using to try to justify his collection. I have left voicemails with two of my Nevada BLM archaeological folk, but I have yet to hear back from them.

Cheers,

Courtney Carlson

<collecting_on_publiclands.pdf>
Cultural Artifacts
Cultural materials on public lands may not be removed, damaged, disturbed, excavated or destroyed. Artifacts belong to the public and remain the property of all Americans and are placed with the BLM. Protection of cultural materials includes:

- Petrified wood may be collected up to 25 pounds plus one cubic foot of wood per person per year.

- Common mineral materials must be purchased by prior arrangement with the BLM.

- Material, including plant, animal and fish, may be collected only for non-commercial use.

- Gemstones and common rock specimens may be collected on public lands.

Wood, Plants and Pine Nuts
Various species of trees are available for firewood with the BLM. Modern money may be collected, but coins and artifacts more than 100 years old may not be collected.

- Pine nuts in amounts up to 25 pounds per person per year may be collected for non-commercial use.

- Campfire wood.

- Christmas tree permits are available for a nominal fee near Gabbs, Nev., Red Rock Canyon and Sloan Canyon National Conservation Areas, historic sites, or which create hazardous conditions such as pits or trash.

- Public resources such as vegetation, scenery and archaeological sites, or which create hazardous conditions such as pits or trash.

- Public resources such as vegetation, scenery and archaeological sites.

Fossils
Fossils such as plants, animals, rocks, mineral specimens, common invertebrate fossils and rocks on an unclaimed site require a permit. Only hobby collecting is allowed in wilderness and wilderness study areas and must not involve surface disturbance. Collection of prehistoric caves, rock shelters, or other underground sites, and of cultural materials on public lands.

- Fossils, including vertebrate and invertebrate fossils.

- Common invertebrate fossils such as plants, mollusks, and trilobites may be collected for personal use in reasonable quantities, but may not be bartered or sold.

- Only hobby collecting is allowed in wilderness and wilderness study areas.

- Collection of dead and down wood for immediate use is allowed except for woodcutting and certain dredging operations.

- Abandoned mines are dangerous places.

- Cave resources, including plant, animal and geologic features, may not be removed, damaged, disturbed, excavated or destroyed.

- Please use care in collecting. Avoid activities which damage fossils. Fossils are dangerous places.

SUBJECT: Collections from LA 19421

SUMMARY

NMML professor for science courses [text on second line unclear]

Skipped work 4 day by this topic is right to him

Beige Skip & metal detecting led to FK

3 attorneys who are advising

Is did you get the pdf FK sent

I do not know about 50 yr rule. Did he believe what doing was illegal

Misunderstanding

So sequester & do research or want answers. Want to share data & protect site.

Knock to EA for town

Need to expand site boundary 1km toward west to basic fence line

"I will work to protect site" will provide all data & evidence from between 1946 & 1954.

Doesn't live to Rosie for commercial & "Can guarantee" would be overtop with diggers

Will not collect. Will not dig

Will pursue acquiring permit from figuring out how to engage a professional.

ACTION REQUIRED

Needs to bring in colleagues for CC to assess

may try to confiscate fragments from the Rowell UFO crash site. I'm one test away from proving that Rowell is ET. The government does not want that to happen.

I need as people as possible to contact the media. The event is Monday morning 10:15 any help would be appreciated. Spread the word!

The BLM called me and wants the small metal fragments from the UFO debris field delivered to their office Monday morning. The enforcement officer will be there. Help!
I don't have a huge following on facebook, so spread the word to everyone I could use the help and the support. Blm office monday morning 10:15. The BLM may try to confiscate fragments from the Rowell UFO crash site. I'm one test away from proving that Rowell is ET. The government does not want that to happen.
Here is an example of the Roswell crash site artifacts the BLM is trying to confiscate this coming Monday morning at 10:15 AM at their district office in Roswell. It was legally collected according to a BLM pamphlet distributed on several BLM sites. Google this "Collecting on Public Lands - Bureau of Land Management ", and read it. The crash site is not a historically protected site and it says that in their Resource Planning document for the BLM Roswell District. Also notice what the document specifically says "of Human origin". Now I have some proof that indicates this material may be of ET origin. I'm one scientific test away from a potential historical event, proving Roswell was really ET and not a weather balloon.
Frank Kimbler presents The Quest For Physical Evidence

July 5, 2017 • Roswell, NM
Notes from Roswell Field Management Staff Meeting with Frank Kimbler, June 25, 2018

In Attendance; Jim Stovall, - Pecos District Manager, Helen Miller, Acting AFM- Resources Roswell Field Office, Courtney Carlson – Roswell Field Office Archaeologist. These notes are being taken by Helen Miller.

Mr. Kimbler stated that he had been collecting some surface material on the X-Bar Ranch, potentially on public land surface, at what he thinks is the alleged UFO site. He works at NMMI as an instructor in Earth Science and has many stories of tours and training with the NMMI cadets.

Mr. Kimbler was concerned about the attendance at this meeting with the BLM Law Enforcement Ranger – Quinton Franzoy.

Mr. Kimbler suggests that BLM get rid of a document produced by BLM – Nevada as it is wrong. (“Collecting on Public Land”) Courtney says that NM Arch program says it is incorrect. Jim wants to talk with BLM – Nevada about the article. (Mr. Kimbler did not provide the document.)

Mr. Kimbler said that he is a law-abiding citizen and wants to protect the site. He is concerned about the location, and our map is too small. He will work hard to protect the site and will provide data, aerial photos, especially those taken between 1946 to the 1950’s. He said he was given permission to be on private surface in the ranch by Eddy Davis, ranch foreman.

Mr. Kimbler asked what could be done to increase protection beyond “No surface occupancy”, as he thinks that this site is now considered an official historical site.

Mr. Kimbler would like to provide his information to us. Courtney would like to see it registered, which is published. That could be a “double edged sword”, providing information from the site as well as documenting the location of what could be an archaeological site. Mr. Kimbler agreed.

Mr. Kimbler tries to look at both extremes – the far-fetched and the programmatic. Some friends want him to take him to the site, but he has declined because that would make the site location known. He is willing to stop any work out there and try to become qualified as a crew chief. Courtney recommended that Mr. Kimbler contact Laura Hronec, BLM NM archaeologist at the State Office, to start the process. Courtney said he would have to have a certain type of college degree and get an “ARPA” permit, be a company or be employed by a qualifying company. Courtney gave Mr. Kimbler Laura Hronecs contact information, written on the back of my business card.

Mr. Kimbler says that the last dig was a couple of 100 yards off of the true location. He will provide the 1946 imagery to us and provide the Doleman report, 2006. (Courtney has it already). Doleman used a screen that was too large, most of the material went through the screens. The material was sent to the Maxwell Museum in Albuquerque, as most universities “won’t touch anything labeled UFO site.” His own metal detector can find a bb sized item 6 inches below the surface. Mr. Kimbler says any material should be within 1 to 2 inches of the surface. Testing of each item is quite costly, up to several thousand dollars per piece.
Courtney asked to see the items, not photographs. Mr. Kimbler is agreeable to that and said he would make an appointment to bring them in.

I asked Mr. Kimbler if he would like to meet our Ranger, Quinton Franzoy, to which he agreed. Mr. Franzoy came into the meeting and he and Mr. Kimbler exchanged phone numbers, just in case there was an emergency and Mr. Kimbler needed Mr. Franzoy's help.

The meeting adjourned and Mr. Kimbler left the building, accompanied by a few members of the public, who had been waiting in the reception area.
Collection from Alleged UFO Skip Site

Thu, Jun 21, 2018 at 4:49 PM

Hello Quinton and Chuck,

I spoke with Frank Kimbler, the individual who has collected items from the alleged UFO Skip Site, about bringing in his collection for us to assess. He will be here on Monday at 10:15 or 10:30.

Cheers,

Courtney Carlson
