SUMMARY OF INFORMATION

SG1A [redacted] is young, very bright, with light hair and a soft personality. A recognizable hallmark or symbol is associated with her name and line of work. She has walked the streets putting something out, thereby providing a service. Her background has included experience with the legal system. She has a sister relationship with a female who is currently close to her. (Profession involves genetic research, healing, diseases such as typhoid and malaria. Nigeria is associated.) [redacted] SG1A is now in the southern portion of Texas, between San Angelo and Duval near the Mexican border.

OPS SUMMARY

Target personality is a somewhat petite, highly intelligent, blondish, girlish individual who likes music or plays a musical instrument. She definitely has been in the US. "Nigeria" surfaced phonetically as being associated with this personality. There is a female (currently) surrounding her in a sister-type relationship; the female's name is Pamela. Professionally, the target personality is involved in human relations, a giver ^{as in a} (salesperson) associated with a profession that bears some sort of "hallmark," an emblem. Issues apparently connected with Nigeria (?) were genetics, malaria, and typhoid; and possibly *medical* research connected thereto. Personality appears to be located in the south central portion of the US. Refined further, the area of interest and activity appears to lie mainly between San Angelo and Duval, Texas. *See ENCLOSURE 1*

She is used mainly as a courier in drug related activity. The drugs are transported in small packages bearing a commercial emblem of sorts.
