SUMMARY OF INFORMATION

A small group of individuals currently within the structure are planning, military and political action for takeover of Panama. This is not Manuel Noreiga's right wing but an organization which the United States would prefer in power. This group is restructuring and building in size to eventually control Panama. They consist primarily of military people who have war intentions. This new Panamanian government is constantly physically moving and will succeed. However, Manuel Noreiga will not be caught and brought to criminal justice the way the United States is hoping for now. Our troops will be spending quite awhile in Panama, contrary to what was expected. Much more war and blood shed will occur before the new Government reigns.
