END: 1400 Beacon

SUMMARY OF INFORMATION

Target is a structure or series of structures. The surrounding area is grass covered with what appear to be man made -- grass covered hills with cement structures inside of them (A/S bunkers).

The activity at the target is noisy. There are lots of things moving quickly up into the air and coming back down again (A/S airplanes at an airport). I also perceived concrete and steel objects protruding from the sides of ravines or hills.

I identified the location through a search as being in the vicinity of the blue dot on the map (attached).
