Interviewer / Monitor Tasking

Describe the vehicle(s)

182478

836131

Note: In the envelope are photos, sketches and descriptions.

Ops Note: Expand on viewer's descriptions as much as possible. Explain the vehicle(s).

This document is made available through the declassification efforts
and research of John Greenewald, Jr., creator of:

The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA)
document clearinghouse in the world. The research efforts here are
responsible for the declassification of hundreds of thousands of pages
released by the U.S. Government & Military.

vacuum

74 1/2 shell, or container with vacuum + sens. Fine "detector" things
on "sensing" things inside. That "notice" changes/fluctuates
presence in ambient environment. Like switches
isn't there + "detector" remains neutral. Then that
something comes, is present, or passes through, + detector
notes it + records it + alarms about it.

Site involves field of equipment in rear area of vehicle that can be removed or placed in it as necessary. Equipment is/ can be integrated w/ vehicular system, but retains certain autonomy. It involves some sort of "containment" or shell, with a vacuum + very sensitive 'detecting' or 'sensing' thing which notices changes/fluctuations/presences in ambient environment that are not humanly detectable - at least in time to do something about it -
