

Project "M"

Interviewer/Monitor Tasking

Describe the vehicle(s)

182478
836131

Note: In the envelope are photos, sketches and descriptions.

Ops Note: Expand on viewer's descriptions as much as possible. Explain the vehicle(s).

This document is made available through the declassification efforts
and research of John Greenewald, Jr., creator of:

The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA)
document clearinghouse in the world. The research efforts here are
responsible for the declassification of hundreds of thousands of pages
released by the U.S. Government & Military.

Communications

S4 1/2 - Concept of "hugz" umbrella & envelope (non-physical) connected with equipment. Purpose is to "cut off" or "conjure" what happens inside "envelope" from knowledge of others outside envelope.

S4 1/2 Concept of vehicle - towed to location. Set up on outriggers, and leveled/balanced/calibrated to be put in operation.

Keep it "under wraps" yet a while.

Equipment parked connected ^{to} site involves an electrical/electronic apparatus towed behind vehicle until operational site reached. Then, "jacked up" on "outriggers", leveled/adjusted/calibrated for operation. Purpose of equipment to produce a ^{huge} ^{clouds of} ^{square} ^{km} "envelope," a "umbrella" which ~~to~~ "cuts off" or "confuses" what goes on inside of "envelope" from awareness of those outside of it. Device is ~~connected~~ connected to vehicle system. Ideas of "artificial aperture; electromagnetics and "synthetic" are involved with equipment.
