3.4.2 Many people involved in violent activity. Not sweets
 dangerous High adrenaline combat tension
 Impression of a person being held depicts in a room of the
 sound of gunfire felt reasonably well-~~little~~
 Wiederholend, after extremely stressful period. People who
 were normally possessing/oppressing him are occupied in
 the ongoing activities elsewhere. Lightly guarded, not going
 anywhere. Bored, beyond being apprehensive. Can't do
 anything to him that hasn't been done to him ^{for little}
~~to~~ depress him, & cause him to give up hope. Instructed to
 feeling contemptuous + obstinate; cooperate as little as possible.
 Pretend to drop in captor but has a secret grudging respect for them
 This person's existence is pretty much a sick issue that knows
 much care about at the moment. He's continually pre-occupied
 of how he might get away. He ~~seems~~ likes his ~~of~~ present guard.
 Individual is wearing a light perhaps khaki-shirt
 "like" a bush shirt. Room enclosed in seems to be
 2nd or 3rd floor that once had windows but have been
 sealed up. There is a door entering on a hall leading to stairs
 going into interior of quarters eventually leading out to
 street. Person knows going out that way not good
 idea, since no streets are safe and getting back out ~~she~~
 would be no better than being stuck in here.
