PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8808 SESSION NUMBER: 04
DATE OF SESSION: 4 FEB 88 DATE OF REPORT: 7 FEB 88
START: 1012 END: 1057
METHODOLOGY: VIEWER IDENTIFIER: 018

1. (S/NF/SK) MISSION: Access and describe the current location of LTC Higgins; determine the nature of his physical and mental condition.

2. (S/NF/SK) VIEWER TASKING: Same as in Para 1.

3. (S/NF/SK) COMMENTS: See Session 04 conducted by Viewer 011 on this date. A high degree of correlation exists between the two viewers. See sketches related to the target site, ie, the stone quarry. A summary of findings is attached.

REPLY TO
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY (C/SS)

SG1J TO: DT-S (ATTN:)

1. (S-SS) Statistics:	Viewer:	O18
	Session date:	4 MAR 88
	Mode of operation:	SOLO

2. (S-SS) TASKING:
1. Describe the present location of LTC Higgins.
 2. Describe his present condition.
 3. Locate and describe any special events or things of special interest.

3. (S-SS) SESSION CONDITIONS: PI: None. AV: None.

4. (S-SS) RESULTS:

a. PRESENT LOCATION: The location appears to be a high place which is dark inside, but looks out onto very bright land. There are repetitive long "screeching" sounds outside (ADL: like uncoiled machinery makes). The location outside Higgin's present location looks down into an open, wide and deep "pit" or (ADL: quarry). One side of this "pit" seems to slope down, whereas all the other sides are very steep (see drawing, page 3). There is a lot of very heavy equipment here.
