## The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA) document clearinghouse in the world. The research efforts here are responsible for the declassification of hundreds of thousands of pages released by the U.S. Government & Military.

**Discover the Truth at: http://www.theblackvault.com** 

- (f) Discuss data to date with viewer, and then resume realtime viewing, providing viewer with additional known information in order to maximize possible information retrieval, recognizing that the additional information supplied to the viewer at this point is at the cost of calibration within the experiment.
- (g) If and when appropriate, follow experiment with evaluation as to quality of results (to degree possible, recognizing issues of sensitivity).

SG1I

will arrive Palo alto, ca & he avaidable for evaluating the first data. Whenever data injulged to contain a significant amount of SG1I unambigour date, will introduce hunself as concurrent satelyince and assume ver Price of derious interest, Will containe to question Mr. Prince and 10-12 July cur as necessary to be assured he has located the exact target building. who If and when Mr. Price has located exact target, he will be asked questions provided by (NEP after test, transcript will be provided to

NPIC to scare ill physical plant descriptions.
