WORKING PAPER

Project: 8925
Date: 890815
Viewer: 018
Session: 01

SUMMARY OF INFORMATION:

1. (S/NF/SK) Location of three Israeli hostages: Since the session involves three targets, I broke the tasking up into three parts, each tasking and cuing each person separately. This proved to be beneficial, since the three do not appear to be in the same location, and the cuing for each one was therefore not polluted by the location of the others. Not knowing their names, but wanting to keep the cuing specifically Israeli, I tagged them by the first three letters of the Hebrew alphabet: Aleph, Beth, and Gimmel.
2. (S/NF/SK) Hostage tagged as ALEPH: This hostage is a man with a stocky build and a mustache. He is presently sitting on the floor, guarded, and has serious pain in his leg bone. There is a person present who is wearing an elaborate Arabian headdress, like that of a Shiekh. His location is in Beirut, in a section called AN NASIRAH, near 3 cemeteries (see map 1, enclosed).
3. (S/NF/SK) Hostage tagged as BETH: This hostage is a wiry, shorter man. He is located in a section of a city which has dirty buildings and small alleyways. There is a strip-joint nearby. Dowsing, I got the impression that his location was far to the south in Lebanon, in a locale near Bayt Yahun and Kunin (see map 2, enclosed). There was a definite feeling of "cooperation", and almost "friendliness" associated with this hostage. The people guarding him are lax, "unprepared", and "not excited" about the

situation. BETH appears to be in good health and condition, considering his situation.

4. (S/NF/SK) Hostage tagged as GIMMEL: This hostage was first viewed located in the ground floor of a very large building with an encircling porch (like a hotel patterned after a southern plantation home). He was bound and gagged, sitting in a chair, guarded by a man with a rifle. He was then viewed as being walked to the edge of a hillside, shot, and then lying in a head-down position on the slope. Whether this is a future event or a past one was not discernable. The location of the building was dowsed as being in Beirut, in an area called DAKWANAH, just outside an area called TALL ZA'TAR (see map 3, enclosed).
