WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 9007-II	SESSION NUMBER: 1/2
DATE OF SESSION: 22 Mar 90	DATE OF REPORT: 27 Mar 90
START:	END:
METHODOLOGY: solo	VIEWER IDENTIFIER: 079

1. (S/STD) MISSION: Provide information on narcotics-smuggling operation involving a series of callsigns.
2. (S/STD) VIEWER TASKING: Encrypted coordinates plus listed callsign (See attached tasking sheet)
3. (S/STD) COMMENTS: No Physical Inclemencies.
4. (S/STD) EVALUATION: Since no "ground truth" operational data is known for comparison, no objective evaluation can be made of viewer 079's results. However, from what this analyst knows of the coastal geography vic Seaside, CA, it would not be possible for a "medium-sized cruise ship" to put in there, though a few miles further south in the Monterey Harbor area, access for such a vessel might be marginally possible. Validity of other information is unknown. Confidence estimate: 30%
5. (S/STD) SEARCH EVALUATION: Same as para 4.

SUMMARY OF INFORMATION

SG1A

A vessel associated with the call sign is a medium sized cruise ship. The name of the vessel phonetically surfaced as the "Visby."

This vessel is currently located at geographical coordinates 46 Degrees North and 138 Degrees West. See ENCLOSURE 1.

The "Visby" is carrying a rather large load of hashish which can be found in "a sectional compartment" with luggage.

The "Visby" will sail in a southerly direction and off load the drugs at Seaside, California. See ENCLOSURE 2.

The ultimate destination of the drugs is Salinas, California. See ENCLOSURE 2.

SG1A

A man associated with the call sign can be described as a middle aged man with silver hair. He wears blue jeans and a black and white pin stripped shirt. He will give the call sign out to two younger individuals; one whom will be a female.

The names of individuals associated with the call sign phonetically surfaced as "Collier/Callier" and "Shaw" and "Freedman/Freeman."
