Confirming our telephone conversation earlier this evening, you are requested to:

Provide as soon as possible a list of the 10 **primary** studies or reports (unclassified or classified) developed under the subject program, i.e., Star Gate or its predecessor, that make the best case for establishing the validity of the paranormal phenomena known as Remote Viewing. The list **should not** include secondary studies/reports or meta analyses.

If you wish to offer additional information, suggestions or advice regarding other program-developed documentation that you believe are of paramount importance to the establishment of this validity under the Blue Ribbon Panel review, please include as an adjunct to your submission of the listing requested above.

SG11

Please FAX the listing to me or  when you have completed it so we can determine how many of the listed documents we have here, how many we will have to "rescue" from your files and which, if any, are classified (how we deal with those will be determined after we see how many there are).
