MEMORANDUM FOR RECORD

SUBJECT: Security Review of "MIND WARS" (U)

1. (U) Reference; MIND WARS; The True Story of Secret Government Research into the Military Potential of Psychic Weapons; by Ron McRae; St. Martin's Press, New York; 1984.

2. (S/CL-1/NOFORN) There are twenty three (23) specific references to Remote Viewing, its use, or accuracy made in statements by; Barbara Honegger, Hal Puthof, Russel Targ, LTC John Alexander, Congressman Rose, Ingo Swann, G. Gordon Liddy, and two additional but unnamed individuals purportedly working in the area of psychoenergetics with the CIA (See attached Inclosure).

3. (S/CL-1/NOFORN) In reviewing the book the following statements can be determined as having a high reliability for truth:

a. Remote Viewing (RV) is real, it is accurate, is replicable, is being pursued by at least the CIA, Navy, Army and Pentagon in general. That it is being pursued for intelligence and military applications.

b. The government's interest in RV is clearly "applications" oriented.

c. Stanford Research Institute International (SRI-I) is the key institute involved with the government in RV research and Development. The specific individual is Dr. Hal Puthoff.

d. The head of the Pentagon's psychic task force is the Assistant Chief of Staff for Intelligence (ACSI), then named; MG Thompson.

e. Department of Defense used psychics to look for MG Dozier.

f. The National Security Council and White House are briefed on all developments in on-going psychic research in both the Jimmy Carter and Regan terms of presidential office.

g. PSI had a direct affect on the government decisions with respect towards the MX Missile system vulnerability and its deployment.

h. There was a Project named SCANATE, run by SRI-I, funded by the CIA and co-participated in with the National Security Agency (NSA).

i. SRI-I's key funding support has come from the CIA, NASA, ARPA and Military.

j. Key psychics involved in the past ten years of research (both scientific and operational) at SRI-I are Ingo Swann and Pat Price (now deceased).

k. RV is being tested currently at NSA to break codes.

l. All PSI research (even the word) is always classified and only passed over encrypted or secure channels.

m. The severe lack of information throughout the entire system available to the general public, to include even unclassified documents, indicates information on governmental research into RV or PSI is being deliberately hidden (and therefore inferred as not only valid, but of unbelievable potential).

4. (S/CL-2/NOFORN) The above in combination with information provided in the numerous Jack Anderson columns (which Ron McRae is know to be a staff writer for), as well as the book "MIND RACE" by Russel Targ (who is referenced in this book); is sufficient to provide a clear trail for any offensive action by HOIS which is targeted towards:

a. Establishing the current state-of-the-art in RV and general psychoenergetics.

- b. Determining who the main players are.
- c. Determining approximate investment in dollars by the U.S. government in research and development.
- d. Determining the specific agencies of the government who are dealing in direct applications.
- e. Spotting those individuals who are available for targeting and could provide far more extensive information pertinent to the above EEI.
- f. And, if a watch is put on those known persons, it would be only a matter of time until the exact location and identity of units, agencies, and/or projects utilizing RV in modes of applications are identified and/or exposed.
