US ARMY INTELLIGENCE AND SECURITY COMMAND
FORT GEORGE G. MEADE, MARYLAND 20755

REPLY TO
ATTENTION OF:

IAGPA-F-SD

3 December 1984

MEMORANDUM FOR Assistant Deputy Director for Scientific and
Technical Intelligence, Defense Intelligence
Agency

SUBJECT: Future Human Use Procedures (U)

1. (S/CL-3/NOFORN) Of the numerous concerns requiring attention in the forthcoming transfer of CENTER LANE from INSCOM to DIA, one in particular, if not attended to appropriately and expeditiously, could pose a major obstacle; that is, the "human use" issue.

2. (S/CL-2/NOFORN) Though the issue has evolved through numerous iterations and revisions since the beginning of the DoD psychoenergetics effort, the highest levels of management, legal counsel and command have generally all concurred that the program indeed constitutes "human use." The exact mechanism by which CENTER LANE will become a DIA asset is at the moment unclear; but whether the option selected involves either temporary detailing of personnel or a permanent change of station transfer, responsibility to resolve the "human use" issue will probably devolve on DIA as the proponent agency for the consolidated psychoenergetics effort. Documentation available to this office are ambiguous as to whether DIA has a current psychoenergetic human use charter, and if it does, if such a charter would provide coverage for the elements transferring from INSCOM to DIA.

3. (S/CL-3/NOFORN) The "human use" issue has not only attracted significant, high level interest and emphasis, but possesses as well a potential for serious program disruption and legal repercussions, should activities continue for an extended period without thorough, formal compliance with the pertinent

regulations and directives. Recommend highly that this issue be addressed by DIA management at the earliest appropriate moment to enable the CENTER LANE activity to continue training and/or resume operations upon transfer to DIA on 1 January 1985. If the CENTER LANE transfer does not occur by 1 January 1985, then INSCOM may have to address the "human use" issue separately since Secretarial authorization to conduct CENTER LANE activities expires 31 December 1984.

5. (U) Regulations governing "human use" to which CENTER LANE has heretofore been subject are as follows:

a. (U) 45 Code of Federal Regulations, Part 46, "Protection of Human Subjects".

b. (U) Procedure 13, DoD Directive 5240.1-R.

c. (U) AR 381-10, paragraph 2-18 .

d. (U) USAINSCOM Regulation 15-3, "Boards, Commissions and Committees: HIGH PERFORMANCE REVIEW PROCEDURES".
