

WORKING PAPER

Project: 91002  
Date: 910206  
Time: 1028-1118  
Viewer: 018  
Session: 01  
Monitor: None

SUMMARY OF INFORMATION:

1. MAIN TASKING: "Describe any important events which will occur on 910207 concerning the Iraq/Kuwait situation." (NOTE: An error was made in the self tasking: actual tasking had date as 910107. However, the understanding was "tomorrow" (910207).

NOTE: Most impressions were vague and tended to come in complete packages. This is not the normal method of perception, but will be reported, nonetheless.

- a. A bombed location will be suspected of being Hussein's location. Rumors will spread that he has been bombed.
  - b. A large plane skids to a landing, with all on board surviving. Could not determine location of event.
  - c. A taped recording will show a missile just taking off from an Iraqi site right before one of our missiles hits the site.
  - d. There was a visual of Hussein in full uniform, making a formal speech. This speech appeared to be a call for peace, but still a refusal to withdraw from Kuwait.
2. FURTHER TASKING: "Describe any terrorist activities which will happen tomorrow."

There was a resulting impression of an attack on a bright red sports car. The location appeared to be either in England or France.

3. FURTHER TASKING: "Describe any important events the next day or the next."
- a. A question surfaces about the number of coalition casualties inflicted by U.S. "friendly fire".
  - b. There was a sudden, strong impression of a factory in ruins in the morning light.
