C-51 29	Geographic Coordinates  Requirement: Describe area located at given coordinates and give status of target located there.	Interviewer knew what was located at target coordinates.	Source was told that data he presented was difficult to match up with target area. How- ever, outside noise had made it very difficult for source to concentrate.	13 Sep 79 In-house	There was no data that appeared to be related to target area.	Because of noise factor, it was agreed that another session should be conducted at a later date.
C-57 29	Geographic Coordinates	Same as above.	That there was some correlation to the target - no specifics were discussed.	20 Sep 79 In-house	Construction parts. Power transmission tower..... Two towers, a gap, one tower and it's bigger than the other two. It's an analytical guess - China. With the Y support like that.	In-house analyst: [REDACTED]  SG1C
