Ball on tower
3 small ones in front of it

long racetrack like field

not a regular track testing ground

* explain

taking picture comfortable no pressure

vehicle running does not look like pictures
he's seen of test grounds

* move to 100 NM alt. describe in terms of geography

zzzzz
+++++ +++++ +++++ ++++++ ++++++

faint picture of trees! minus GO HIGHER!!

nondescript

seem to be just south of a big city!!!

* distance

60 miles

* do you recognize the city?

seems to be just south of Moscow!

* back to picture - place hand on tank
it's doing about 30 mph

* move backwards thru space/time to point of
final assembly

inside a foundry like bldg.

stacks outside

not final assembly

This document is made available through the declassification efforts
and research of John Greenewald, Jr., creator of:

The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA) document clearinghouse in the world. The research efforts here are responsible for the declassification of hundreds of thousands of pages released by the U.S. Government & Military.

Discover the Truth at: <http://www.theblackvault.com>

- something peculiar about the tracks
cold, grey outside
- * where is the tank?
over there w/o tracks
 - * move to 100 NM - describe location in terms
of geography
about 30 miles to the NE of where I
was before
nearer the city
a big factory complex
 - * describe again - where
about 30 mi NE of where I was
about 30 mi SE of a big city (he said
Moscow earlier)
 - * free flow - anything to add
something funny about taking the photo.
They did not feel tension or pressure
as though they could take the photo
again.
 - * saw data:
~~he was not~~ the guy developing the film
was not rushed.
 - * is he the guy who took photo
only saw back - saw no restriction
like he was ok to take pictures
 - * wearing: soft full cap, dark loose wool
dark jacket - not a suit like a
work jacket
origin of photo is known +
