60 ft. open culvert.  
> underground in places (object) and elevated in other places. goes over a small cut away cement ditch a lined shallow ~~course~~ <sup>source</sup>. on Pilings: feeling down in a cement type work - domed rivine. (don't see water). to left is high town and scaffolding that's elongated.

(MOVE OVER TARGET) (Describe terrain)

> feeling of, on distant horizon, humps - Sunrise. Looking at Sun rise - more terrain features to back side - right side low hill (Snow capped.)

At back - 30 miles back - a mountain... essentially.

away from town - official structure - about 4 stories. Surrounding area has people and structures - but (no big city) more like an outpost or a - like a little town - small city - stretches away in a recent slope on right which would be in the mountain on right.

(FOCUS ON ACTIVITY)

> Attracted to and impressed by rugged jagged concrete blocks elevated off ends of scaffolding. Very square & stark. - supports vehicles - which can drive up on rocks on this very deep cut or gorge. As we supporting scaffolding or suspended in folding. Some ~~angles~~ angles - cement round bases
