INSTRUCTIONS TO ANALYSTS

1. (U) The material you have been given to review has been acquired from a new and potentially valuable source of intelligence. Work is currently being conducted on how to improve the accuracy and reliability of the data. Your attention to the evaluation sheet and your remarks will be the basis for our assessment of this new collection technique. Therefore, the effort you expend will greatly assist us and will ultimately result in you receiving more information of increasing accuracy and reliability.
2. (U) While formulating your judgements concerning the information provided, the following comments concerning this new source of intelligence may be helpful. Foremost, the information is likely to consist of a mixture of correct and incorrect elements. Specifically:
- a. (S) The descriptive elements are generally of higher reliability than judgements or labels as to what is being described (recreational swimming pool may be mistaken for water purification pools, an aircraft hull may be mistaken for a submarine hull, etc.). Therefore, seemingly appropriate descriptive elements should not be rejected because of mislabeling.
- b. (S) The data often contains gaps (in a 3-building complex, for example, perhaps only two of the buildings may be described, and an airfield may be added that isn't there). Such gaps or additions should not be taken to mean that the rest of the data is necessarily inaccurate.
3. (S) Therefore, a recommended approach is to first examine the entire information packet to obtain an overall flavor of the response, reserving final judgement even in the face of certain errors, and then go back through for a more detailed analysis.
4. (U) If you have questions regarding the data you have received, or its evaluation please contact this office (IAOPS-H-S) at any time.

*Definitions for the accuracy scale are as follows:
0=little correspondence (Self explanatory.)
1=Mixed results (Mix of correct and incorrect elements, but enough of the former to indicate source did collect against target.)
2=Good (Good correspondence with several elements matching, some incorrect information.)
3=Excellent (Good correspondence with unambiguous unique matchable elements and relatively little incorrect information.)
UNK=Unknown. N/A=Not Applicable.

Specific Transcript/Drawing Items

a. (S) Re Location of Ship.

o Specific Transcript

- Small islands south of it.
- Rugged coastline; small groups of islands.
- Not in deep sea; it's in a sea - not ocean.
- Maybe Europe.
- See people in old fashion clothes; somber; sheep herder type people.
- See buildings on rocks/cliffs.
- Rock is shale; steep cliffs.
- 5-8 miles at sea; along coastline; not far from land.
- Mountaineous coast
- Lots of islands.
- Very old buildings; looks like medieval times.

b. (S) Re Activity of Ship

o Specific Transcript

- Ship is turning with tug boat; being repositioned.
- Whatever it was there for is done.
- Has been gone from wherever it went just one-day.

o Drawing. (drawings made by source not available to requester) Subject drew similar drawing as shown below:
