Memorandum for the Record

Subject: Project 8003(d)

1. (S/NOFORN) At 151200 hours October 1980, interviewer #66 informed me that in conversation with LTC Watt earlier that day, #66 had been made aware of the fact that an earlier session #66 had facilitated against a sealed envelope target had been directed against the [REDACTED] SG1A

2. (S/NOFORN) Apparently, this information was gleaned from a conversation regarding targeting for session D- #66 was told by LTC Watt to "do like had been done against [REDACTED] when #66 asked

SG1A

he ~~had been~~ was told
 the sealed envelope session.
 When #66 expressed surprise
 that the sealed envelope target
 had been targeted against the

SG1A

 Ltc Watt attempted to
 direct the conversation against
 a different session, citing
 #7's earlier work against a
 similar Soviet target (which
 was not a sealed target
 methodology session)

3. (S/NOFORN) In summary, future
 sessions (if any) against 8003(A)
 must take into account that

SG1A

 has been ID'd to #66 as
 having been targeted in the
 past. This is an important

Having gestalt similarity which
is known to be associated
with this analyst in-house,
may be misconstrued to be
the [REDACTED] when, in fact, it
may not be.
