FOR COMMANDING GENERAL, USAINSCOM

SUBJECT: CENTER LANE Meeting with DIA - 20 July 1984 (U)

SG1J 1. (S/CL-2/NOFORN) On 20 July 1984, CENTER LANE personnel met
with ▓▓▓▓▓▓▓▓▓▓ Director, GDIP Staff, Dr. Jack Vorona,
Assistant Vice Director for Scientific and Technical
Intelligence, DIA, and other key staff personnel. The purpose
of the meeting was to outline possible mechanisms for transfer
of the CENTER LANE psychoenergetic effort from USAINSCOM to
DIA/USAMRDC. The attached talking paper (see Incl 1) was used
as a format for these discussions. Also included in the
discussions were the concerns of the command as reflected in the
attached Memorandum, IACG, USAINSCOM, 17 July 1984, subject:
INSCOM CENTER LANE Project (U) (see Incl 2).

2. (U) The following areas (in the order presented) were
addressed by ▓▓▓▓▓▓▓

SG1J

a. People (spaces?) should be moved to DIA. —

b. BG Shulfelt, Deputy ACSI, was asked (two weeks ago) to
to look into the possibility of Army (INSCOM?) supplying   SG1J
"overage billets" to DIA for FY 85. ▓▓▓▓▓▓ had not yet
heard from BG Shulfelt. ▓▓▓▓▓▓ would insure DIA billets
SG1J would be available for FY86 and beyond.

SUBJECT: CENTER LANE Meeting with DIA - 20 July 1984 (U)

    c. The program must be preserved by ensuring personnel have long-term assignments and personal anonymity.

    d. The effort must be kept small (11 sounded too large). Specific faces and numbers are subject to negotiation based on perceived DIA requirements as determined by Dr. Vorona.

SG1J   e. Dr. Vorona (and ██████████ his representative) will coordinate with CENTER LANE personnel the transfer of operational, training, and research and development (R&D) functions with the goal of maintaining continuity.

    f. Dr. Vorona stated that maintaining personnel and offices at Ft. Meade would be desirable.

    g. Personnel assigned to DIA will initially be in TIARA billets and operationally under the control of AT as opposed to DT (Dr. Vorona's office).

    h. Dr. Vorona will maintain overall oversight responsibility within DIA for both operational and R & D aspects.

    i. Plans are to establish a "high level" subcommittee from the intelligence community to provide centralized tasking and evaluation of the operational effort.

3. (S/CL-3/NOFORN) The meeting ended with a spirit of cooperation and enthusiasm for the future of psychoenergetic operations and research. The intent of all parties concerned is clear, but the administrative arrangements required to carry out such an intent are monumental in scope. Will the Army (ACSI/INSCOM?) agree to provide "overage billets" to DIA? Can (presently trained, reliable) military personnel be assigned on a long term basis and with personal anonymity to DIA without damage to career status? Will present personnel <u>volunteer</u> for assignment to a DIA psychoenergetic program? Can DIA make arrangements with HQ, Ft. Meade to use present INSCOM facilities? These questions and more must still be resolved.
