secluded off from surrounding, by a wall or fence or etc. Main bldg is very solid, massive, probably masonry, with long unevenly lit corridors, several levels, & offices & things w/ "official" type people.

Other w/in complex are varying sizes & shapes. One large one seems ~~almost~~ <sup>particularly</sup> restricted in access. A few or several long low bldgs of possibly w/ rounded roofs are also present. Secretiveness or clandestine to purpose of Site; purpose is officially sanctioned, it covert; flavor of engineering purpose using technology, perhaps newly developed in novel ways. <sup>perhaps</sup> Hybrid between Gov't, military, sciences, technocrats, etc. Foreign.
