SR

Site is an area of open land with green and brown  
as predominant colors. Probably indicating vegetation.  
Structure at site is impressive by it's size.  
Very big.

There is more than one structure at the site. Others are  
low and clustered. There is a <sup>wooded</sup> <sup>area</sup> at the site  
and it's sandy. There is a <sup>partial</sup> <sup>wooded</sup> <sup>area</sup> associated  
with other structures. "Zachary!"

Structures at the site are crumbled and pieces  
are scattered. The site is isolated and  
abandoned by events (AOL). Something  
destructive occurred here. It is not a  
nice place.

Very dry dusty track - ash.
