SUMMARY: Session given up on because of strong
suspicion of AOL drive,

Sites ^{AND} 15 seems to be ~~non~~ nondescript
enough to ignore - seems to be city area.

Site seems to have dome which is partly
crumbled / destroyed. Strong AOL drive of Libyan
bombing.

Site seems to have room inside in which
no one is. Room is half-destroyed - has
something on one side of room - looks as a desk
with paper on it. Smth on other side is long
+ low - half crushed by collapse ceiling.
