CRV SESSION PROCEDURES REPORT

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

CONTROL NUMBER: 8605   NICKNAME: None   SG1A

DATE OF SESSION: 29 Sep 87   TARGET COUNTRY: ▮▮▮

REFERENCES: None   SESSION NUMBER: 01

DATE OF REPORT: 1 Oct 87   MISSION STATUS: Continuing

TECHNIQUE UTILIZED: CRV   SOURCE IDENTIFIER: 011

---

1. (S/NF/SK)   INTERVIEWER TASKING: Approximately one year ago this office began a periodic Remote Viewing mission of the ▮▮▮▮▮▮▮▮ SG1A
▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮▮ SG1A
▮▮▮▮▮▮▮   The specific target was a special private room adjacent to a SG1A
larger "operations type room" in which the senior members of the
▮▮▮▮▮▮▮▮▮ meet to discuss various matters in relative privacy SG1A
and in a more informal manner. For the last several months other
commitments have prevented continued exploitation of this facility.
More recently an effort has been made to rejuvenate this target. In a
recent session with another Monitor, Source was provided this mission
with mixed and ambiguous results indicative of a general site
acquisition, ▮▮▮▮▮▮▮▮▮▮▮ however the actual target, located SG1A
▮▮▮▮▮▮▮▮▮▮ was bypassed. In this session, the primary SG1A
concern was to be insuring proper site acquisition before beginning
the more abstract concepts of the activity within in the ▮▮▮▮ SG1A
▮▮▮▮ itself.   SG1A

2. (S/NF/SK)   SOURCE TASKING: Source was told that this was a
continuation of a target that, "...you have worked before. In the
previous session, indications are that you may have permitted other
more interesting gestalts to detour you away from the actual target.
You will therefore, have to know that there are other distractions in
the area totally unrelated to the target. If I task you to re-focus
or to leave an area it will be because I believe you are at the wrong
area". Additionally Source was provided the same encrypted
coordinates as the initial session, 112170/018605, as per Coordinate
Remote Viewing (ERV) protocols. No other cuing or descriptive data
was provided to Source prior to the session.

The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA) document clearinghouse in the world. The research efforts here are responsible for the declassification of hundreds of thousands of pages released by the U.S. Government & Military.

3. (S/NF/SK) INCLEMENCIES: There were no reportable incidents or anomalies which may have influenced the data obtained in this session. This was the first time in over three months that this Source was matched with this Monitor in a formal session. Very often the introduction of a new Monitor can upset the rhythm established by the "regular" Monitor and the Source. In this case there were some incidents where the Monitor imposed his versions of the accepted protocols and in other cases it was obvious that the Monitor was waiting for the Monitor to make some remark or action so that the session could continue. After a few such moments of uneasiness, the session seemed to progress smoothly and in the opinion of the Monitor, successfully.

4. (S/NF/SK) SUMMARY: Source furnished the attached summary which was prepared following the session and submitted to the Interviewer within 24 hours after the session. The completeness of the typewritten summary has been compared to the Interviewer's notes and all omissions, changes, and/or corrections have been verified as acceptable by the Interviewer. The information provided in the summary was found to be complete and did not require further modification, clarification or additions by the Interviewer.

5. (S/NF/SK) COMMENTS: Although Source has previously reported on   SG1A
this target. His previous session seemed to indicate more of

[redacted]

early in the session and commented on this AOL in   SG1A
His written summary. Since this type of comment, albeit very often correct, is an effort by the Source to analytically "label" a site, it was ignored and not encouraged since this is a basic violation of the concept of right-brain descriptions.
