PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

---

PROJECT NUMBER: 8717                      SESSION NUMBER: 02  
DATE OF SESSION: 30 Dec 87              DATE OF REPORT: 6 Jan 88  
START: 0915                                  END: 1020  
METHODOLOGY: ERV                          VIEWER IDENTIFIER: 018

---

1. (S/NF/SK) MISSION: Access the target site at 589281/856562 and identify/describe the new structures of high intelligence interest.
  
2. (S/NF/SK) VIEWER TASKING: Based on data previously furnished in Session 01, provide overview, an overhead sketch of the target structure(s); indicate target structures in sequence of X-1, X-2, X-N. Revisit tall squarish (target) structure, describe interior, purpose, and dimensions; provide supporting sketch.
  
3. (S/NF/SK) COMMENTS: Physical inclemency noted. Viewer 018 had a bad cough that proved distracting; the cough notwithstanding, 018 accomplished more than 70 percent of his assigned mission.

## memorandum

DATE: 4 January, 1988

REPLY TO  
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY (C/SS)

SG1J TO: DT-S (ATTN: [REDACTED])

1. (S-SS) Statistics: Viewer: 018  
 Session date: 30 DEC 87  
 Mode of operation: CRV

2. (S-SS) Tasking: Describe the general area around the target site, with any specific descriptions of the exact structures, called "X-1" and "X-2".

3. (S-SS) Results:

a. The area around the target site (see drawing #1) is perceived as being generally flat land. To one side of the site is a waterfront (perceived as a sharp, irregular dividing line between land and water; ADL: dock or wharf area.) The water area is not perceived as continuing on out (as out to sea), but is perceived as only a strip of water between two areas of land. To the other side of the target structures, a large city is perceived. This city seemed to be a lot of very low (one-story) structures, with very tall structures placed randomly among them (as opposed to what I think of as an American city, with large buildings generally clustered together in "zoned" areas). The smaller structures had a very junky and/or run-down appearance.

b. X-1 was perceived (see drawing #2) as the same structure I had visited in a previous session: It is smaller than a nearby structure, seemingly in its shadow. X-1 seems small from the outside, but inside, appears large. The inside of the structure was perceived as having two front rooms, then the rest of the building being large and open. There seemed to be a lot of medium-sized machines (lathe-size) which I could not recognize uses for. At the time of this viewing, the entire building appeared dark and lacking any activity.

c. X-2 was perceived as being physically located off to the side of X-1. X-2 seemed smaller than X-1 from the outside, but once entered, gave the impression of being huge. It appeared to contain a floor-to-ceiling machine with lots of lines running everywhere, and possibly many catwalks. In this same vein, I got the overall impression that X-1 was a building which contained things, but that X-2 was not so much a "building" as a simple covering for the protection of the large machine.

d. Two or three times during the session, there was another structure which I "popped into". This structure is separate from X-1 and X-2. It is white, small (about the size of

a moving van), and covered inside with what appears to be aluminum-foil all over the walls, and refrigerant pipes running all along the walls and ceiling. No particular purpose was perceived for this structure, but its location is marked as well on drawing #2.

COORD: 589281

589281 / 856562

① In flats land area -

target structure (s) overview)

overhead rooftop sketching

of general disposition - indicate target building (s) with an X-1 X-2.

856562

② Revisit tall squarish structure with flat roof - go inside - ~~describe~~ describe

- purpose -
- determine dimensions
- ~~provide~~ describe purpose
- provide sketch

③ Large, round, ~~short~~ blunt-ended ~~edge~~ objects.

→ 0922 - Coordinates

→ Overview/overhead of general area in vicinity of and includes target site. Completed?

⊖ no Buchsida - Mar Pier / water -

⇒ we have water - ten around opposite direction

⊖ fort site is the city.

⊖ Older building - European bridge - 20's - 30's

- ⊖ WWI, WWII - no molen architecture rubble -
- Find a church/descrie
- ⊖ 5 + euple looks strange - Castle turret
- Radio antenna tall metal open frame with
- people in yellow plastic clothes - work celt
- big packages
- City will make its own impression upon you - allow this to happen.
- ⊖ noisy - big buildings - intermingled - no middle sizes - Oriental Korean flavor.

→ Access target Site and descrie

⊖ Look for new structure

⊖ Access Box

→ X-1 is being drawn, allowy oth stw.

⊖ Refrigerant - pipes all over insu with aluminum foil

→ Insiston overhead overceer starting w/ X-1

→ Describe X-1 tall

separated from big building beside it

flat - roof - Ridge off-center -

Openish - grayish - clouds overcast

⊖ One tall one story - 35/40 ft / rectangular

top windows on one side not on  
other  
→ Texture

⊙ Robby - Rough feel

⇒ Access interests of X-1 use one word descrip.  
light, tall, open, funky  
people should be there not like

⊙ Purpose

machine shop - many things  
heavy-duty - equipment - no.  
rounded edges - smooth texture -  
warns

→ Purpose / use

→ none - strong materials  
Let go X-1

⊙ many arms? in different direct.  
light goes out in different direct.  
- optical equipment.

→ Go to X-2 describe X-2.

⊙ Images of equipment

→ X-2 the structure -

⊙ Archway - St Pauls

→ One word descriptive of X-2.

⊙ Small - dark blue -

→ Covered -

⊗ X2 is a big solid thin piece of equipment w/ cover. important for what is in it.

→ Stay in structure and describe

⊗ Different levels - complex - squares verticals - lines - different levels rounded component -

→ Access piece of equipment describe function / purpose

⊗ Manufacture things - different kinds of activities - fast movements / motions.

→ Overall purpose of site.

⊗ Repair, replace, refurbish service - work physical work -

→ Round Ceramic Rods heavy to as with planes.

→ Room Configuration
