SESSION SUMMARY  
4 NOVEMBER 1987  
SOURCE 0095

Site is a interconnected structure(s) with a thin/ flimsy dome like substructure on one end. Site is under construction, and workers are sliding long things into place. There is additional structure area underneath the bottom of the dome. The dome is open and airy inside. The purpose of the structure is military. In 1990, there are intermittent very loud (machine like?) noises occurring, and there is a feeling that the structure is not yet completed. The dome is concealing something: angular/ rectangular objects.
