~~SECRET~~ NOFORN-SKEET CHANNELS ONLYPROJECT SUN STREAK (U)WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

## CRV Session Procedures Report (S/NF/SK)

Control Number	: 8704
Date of Session	: 25Mar87
Date of Report	: 25Mar87
Source Identifier	: 018

1. (S/NF/SK) Tasking: See original tasking data sheet, attached. Monitor briefed on additional aspects of the site 24 Mar 87. No additional tasking received.

2. (S/NF/SK) Session: First for source after a 6-week break (post-surgery convalescent leave). Source seemed much more relaxed than during past sessions--his performance and data were excellent.

3. (S/NF/SK) Summary: First part of site: Described as an "energetic, directionally-flowing area" and a "foam environment or bubble" made up of what seems to be very "active, molecules with spikes" (see source sketch, p.5). The appearance is light green, grey and transparent. It is very "airy/foamy" ("spongy airiness") and rapidly moving. It imparts a "peppery, cold heat or cold burn" which remains on the surface of the skin. There is an associated "new cardboard" smell and a "drying out taste". (AOL-"radiation"). EI present at the site was repulsion--"back away from it, don't touch it".

Second part of site (6 kilometers southwest of above area): A structure that is dimensionally complex; aesthetically curved with many (inside) angles. Source feels that this is a single structure but that a related structure exists, (AOL-"cooling towers at a nuclear power plant"). Inside of the structure is voluminous; multi-leveled with many (non-uniform) rooms and compartments (see sketch, p.9). A humming or vibration is present. Near one compartment is a large, hollow area where sensory elements of heat and noise ("but not sound") are present, accompanied by an "updraft" feeling.

~~SECRET~~/NOFORN-SKEET CHANNELS ONLY

4. (S/NF/SK) Feedback: Source was informed that the next session would be used to gather more data on the structure.

INTERIM SUMMARY: SECOND PART OF SITE IS  
A CURVED STRUCTURE W/ IRREGULARLY SIZED  
COMPARTMENTS. ONE COMPARTMENT SEEMS OF  
MORE IMPORTANCE THAN THE REST. - IT IS NEXT  
TO LARGE HEATED OPEN AREA.  
FEELING THAT THIS IS A SINGLE STRUCTURE,  
BUT THEN GET IMMEDIATE IMPRESSION THAT A  
RELATED STRUCTURE EXISTS - AKA'S OF COOLING  
TOWERS AT ~~REACTOR~~ NUCLEAR POWER PLANT.

SESSION ~~END~~ END 0943 HRS.  
(WILL CONTINUE SITE)
