VIEWER 095; USING SUPPLEMENTAL COORDINATES THIS VIEWER
ACCESSED THE TARGET AT A POINT IN TIME
WHEN THE CONSTRUCTION HAS BEEN COMPLETED AND
THE FACILITY IS OPERATIONAL. THE VIEWER DESCRIBES
THE TARGET AS A STRUCTURE WHICH IS LAID OUT
IN SPECIFIC DESIGNATED AREAS/SECTIONS
ACCORDING TO FUNCTION/PURPOSE. ASSOCIATED
WITH THIS TARGET IS THE CONCEPT OF STRUCTURES
WITHIN STRUCTURES. ORGANIZATION WITHIN THE
STRUCTURE IS VERY HIERARCHAL WITH EACH ELEMENT
PERFORMING VERY SPECIFIC TASKS/FUNCTIONS. IDEAS
ASSOCIATED WITH THE PURPOSE OF THE STRUCTURE ARE
REGULATION, INFORMATION, PLANS, DEVELOPING,
AND EARLY STAGES. ANALYTIC OVERLAYS ASSOCIATED
WITH THIS STRUCTURE AND ITS PURPOSE ARE

Site is a structure which is laid out in specific designated areas/sections according to function/purpose (AOL/S like security checkpoints between areas one goes from area to area only if one has the need to). The structure is not state-of-the art construction-not very modern. Associated with the structure is the idea of structures within structures. Organization within the structure is very hierarchal with each element performing very specific tasks/functions. Ideas associated with the purpose of the structure are regulation, information, plans, developing, early stages. There is lot of competition among the workers in the building each with a strong feeling of righteousness for their ideas and plans. Strong feeling that work/ideas progress hierarchically from area/section up through area/section. Each subsequent section either puts a stop to/ cuts the idea or in few cases passes it up to the next level for approval. There are lots of bureaucratic walls and this is a major source of frustration for the people in the building. As these ideas are submitted from level to level most get terminated somewhere along the way and only one or two survive to be acted on. AOL/S associated with the structure and its purpose are R&D projects in their infancy, military, Soviets, weapon.
