TO: DT-S (ATTN: [REDACTED])

1. (S-SS) Statistics: Viewer: 018
 Session date: 11 JUL 88
 Start time: 1115
 End time: 1225
 Mode of operation: SOLO
 PI: None
 AV: None

2. (S-SS) Cuing: 6 digit encrypted coordinates:
 641501/880782. (Structure located in 17 Jun 88 session).

3. (S-SS) Tasking: Describe the interior of the structure.

4. (S-SS) Results:

a. The interior of the structure contains at least the following rooms (see sketch, page 9 of the transcript):

1) A large room which mainly contains chairs.

2) A room to the side of the large room which is mainly white and yellow in color and may contain some form of machinery or cabinetry (see sketch, page 7).

3) A glassed-in room off to the side of the second room which gives strong impressions of being a type of "clean" room.

b. Activities within the structure include:

1) There are people in the large room (4.a.1, above) who are idle. These people are all male, and gave repeated impressions of being in bathrobes or very leisure clothes. There is a large, round, white "thing" on one wall beside a door which leads to the side room (see sketch, page 4).

2) I could find no signs of people in the side room (4.a.2, above), but there was a loud, repetitive metallic noise (AOL: like a ratchet, or a slipping chain drive).

This document is made available through the declassification efforts
and research of John Greenewald, Jr., creator of:

The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA) document clearinghouse in the world. The research efforts here are responsible for the declassification of hundreds of thousands of pages released by the U.S. Government & Military.

3) The "clean" room contained people who were dressed in loose-fitting clothing, floppy hats, and white gloves. They were hurrying purposefully back and forth. Their activity appeared to center around a small "mechanism" and a long table. The last impression before session end was that of a nude male lying on the table, evidently unconscious, with one of the workers handing the "mechanism" to another who was standing over this man.
