

WORKING PAPER

Project: 8910-4 (W-3)
Date: 16 OCT 89
Time: 1417-1458
Viewer: 018
Session: 01

SUMMARY OF INFORMATION:

1. Describe the target site: The site is a group of structures located on the beach. One particular structure is very large inside, with very ornate windows. Outside, it is sunny and warm, while inside this particular structure, there appears to be a haze or smoke of some kind. The large structure appears very much like a cathedral-type church. While there are very few people inside, there are lots of people outside. The inside has at least one hand-carved wooden object which has orange paint chipped and peeling from its surface.
2. Describe the key activity at the target: There is a lot of activity outside, where all the people are mingling, going separate ways, talking, laughing, and doing things in a recreational setting. One girl was noticed on roller skates. Inside the structure, some men were walking together quietly, and another group was quietly discussing something, while other single people were sitting quietly alone.
