WORKING PAPER

Project: 8910-25  
Date: 27 OCT 89  
Time: 0643-0746  
Viewer: 018  
Session: 01

SUMMARY OF INFORMATION:

1. Describe the target site: The site consists of a large structure (see sketch, bottom of page 7) which is fronted by an "outside" area of small paved places between grassy places. The grassy areas appear to be artificially "stepped" in some way or another, so passage between the different levels is not noticed. It appears that people normally stay on the paved areas, rather than the grassy areas. There is a grey and green structure (see sketch, top of page 7) located in this "outside" area, but this structure appears much more diminutive in size.
2. Describe the key activity at the target: The activity inside the large structure consists of eating, resting, bathroom facilities, etc. Activity in the "outside" area consists of walking, lots of standing, watching, and looking around. Some of the standing appears to be in an odd position, somewhat "cocked to the side".
