SUMMARY OF INFORMATION

The site is a blocky, beige/tan structure with dark brown trim. It is on flat, developed land. It is in an urban/commercial area. The main architectural features of the structure involves numerous right angles and horizontal and vertical surfaces. From the outside, the structure has several cubic levels each with a flat roof. One of these has a railing around it. There is water more than 100 yards away from one side of the structure. In one direction there is a scenic view.

There are alot of people around the structure. Most of these are walking. Inside the structure are people also, again many of them walking. The structure has a business establishment feel to it. See sketches pp. 3 and 6.
