SUMMARY OF INFORMATION

The target is a large structure. This structure is long, narrow but has very high ceilings and a large main room (see sketch #1). This room is lighted with natural light which originates from several large glass windows surrounding the room. There is a double door which is open to the street -- which also allows light in.

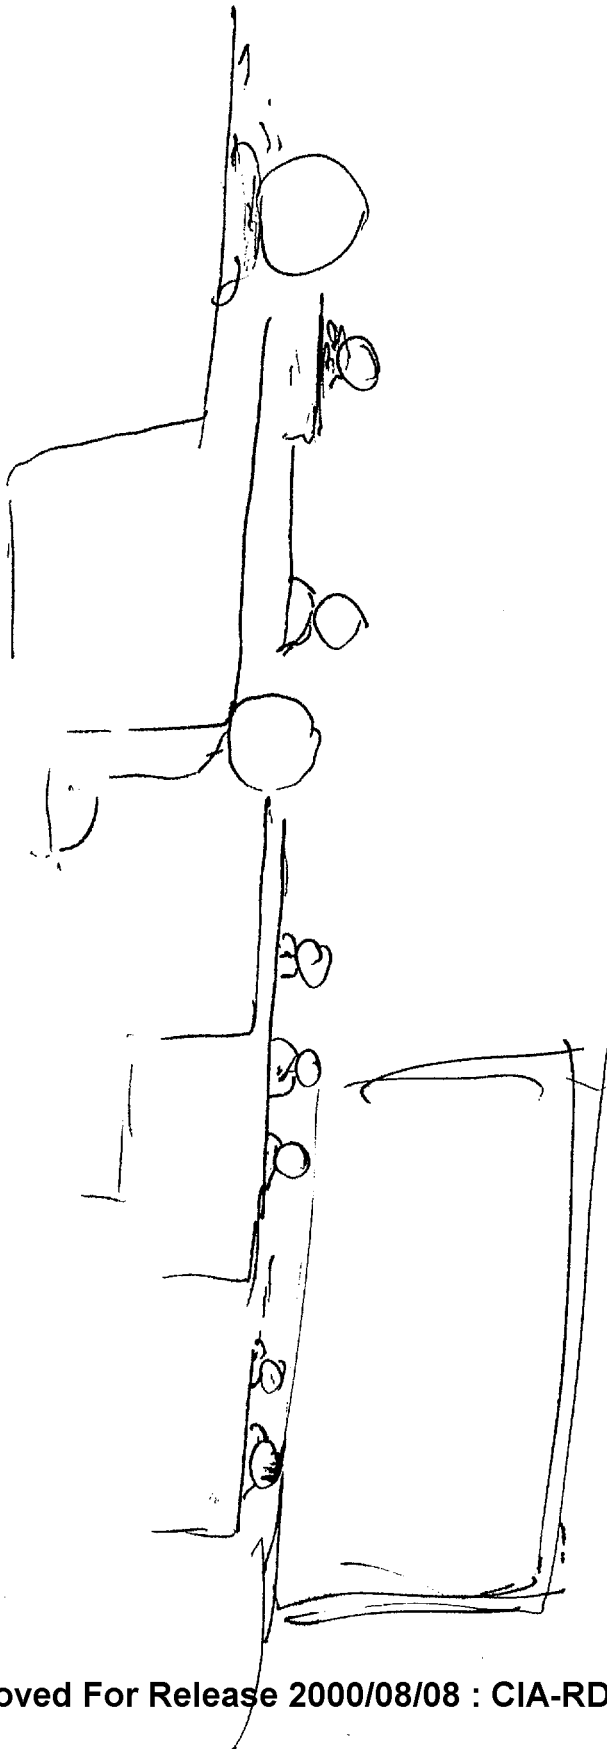

X The inside of the structure has very ornate wood moldings lining the ceiling and walls. There is a lot of color associated with the inside of the structure, but the tones are subdued (old looking). There is also a lot of dark woods and plaster.

X The activity present inside the structure is somber and sedated. There are a number of people sitting -- all facing the same direction (see sketch #2). But outside the structure there is a market place with a great deal of activity going on. There are canopies, food stuffs, people bartering, selling and buying (see sketch #3). There is sunlight, color and much activity, all of which appears to be Latin oriented.
