WORKING PAPER

Project: 891129 (W-11)
Date: 30 NOV 89
Time: 1406-1456
Viewer: 018
Session: 01

SUMMARY OF INFORMATION:

1. Describe the target site: The site is a structure. Portions of the structure are made of old wood; other portions appear to be made of adobe or stucco. The entire structure has a profusion of a garish mixture of muted colors (dark browns, dark greens, dark peach, etc.) which gave the impression of a Spanish ambience. The interior of the structure is extremely crowded. It appeared to be virtually packed with plants which are in earthenware pots and which appear to be purposefully "dirty", as though mud had been poured down their sides and left as part of the pot's design.

There is a general quietness to the site, with a definite smell of fresh air and a fresh "dirt" smell. At places throughout the structure, furniture was seen, as though I were in a living- or dining room.

At one place within the structure, I found what appeared to be a Christmas tree decorated only with dark red ribbons.

2. DESCRIBE THE ACTIVITY AT THE SITE: I found several people wandering the through the structure looking at the plants, working their way between and around the many plants which were sitting around everywhere. Many of them were touching the plants and talking about them.

3. DESCRIBE THE OUTSIDE OF THE STRUCTURE (POST SESSION TASKING): See sketch, attached.
