SG1A

1. (S/NF/SK) MISSION: Determine if the vessel known as [redacted] or [redacted] which left Honduras on 21 September 1988, was carrying drugs as suspected. If so, determine where on board the illegal drugs were stored. Determine how they were packaged and stored. Determine where they were unloaded and determine the final destination for the drugs.

2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 127880/79629.

3. (S/NF/SK) COMMENTS: Session was terminated early as 003 experienced difficulty acquiring the site, this was similar to the difficulty experienced by 018 on his first session on this project. One reason for this difficulty may be that the requirements were written in present tense; the initial intent was for a predictive mode session. However, since 003 was not tasked until after the event had passed, the requirements were not valid in the form in which they were written. Another reason may be that the viewer was unconsciously confused about the requirements. This type of stage one difficulty has previously been noticed in sessions where the customer had additional unvoiced requirements/agendas, which caused confusion if the viewer picked up on them either consciously or unconsciously.

4. (S/NF/SK) EVALUATION:

HANDLE VIA SKEET CHANNELS ONLY
