PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	8904	SESSION NUMBER:	03
DATE OF SESSION:	06 FEB 89	DATE OF REPORT:	06 FEB 89
START:	1255	END:	1345
METHODOLOGY:	CRV	VIEWER ID:	095

1. (S/NF/SK) MISSION: To access and describe a target structure shown in overhead photo imagery.
2. (S/NF/SK) VIEWER TASKING: "Reaccess and describe the target in greater depth, concentrating on the site's purpose and activities."
3. (S/NF/SK) COMMENTS:
 - a. Inclemencies: Chronic cough.
 - b. 095 developed excellent site contact, almost immediately, and was very quickly overcome by a strong AI of burning heat on the face. This was worked around, but returned 8 or 10 times in the session. Access was also gained to a "key person" at the site. The accession of a person on a mental level is evidently not a normal part of 095's RV technique, but was evidently strong and fruitful.
 - c. Summary of Information enclosed.
4. EVALUATION:

Session Summary
Viewer 095
6 Feb 1989
1255-1345

In the building described in previous sessions, are many offices. The hallways are narrow and cramped and are white and brown in color; the walls have a rough plaster feel.

In one area is a bright, narrowly focused (less than 45 degrees) source of IR radiation which made me feel like my face was burning. This severe aesthetic impact caused me to experience AOLs of heat lamp, interrogation lamp, open air nuclear test to test effects on people).

Some of the offices in the building are large and are filled with busy, industrious white collar workers who are the equivalent of "GS 7 - 9 s." The work-space is crowded and has a typical bureaucratic lack of privacy.

This facility has a "SOP," that is a formally written out mission/mission statement. Ideas for action, though, don't seem to originate here but rather come from above. "Above" is located to the southeast.

In one of the rooms there is a meeting going on where men are sitting around a rectangular table discussing fiscal matters to include operating funds, cuts and concerns about the cuts.

This facility has a "paper" product, that is nothing physical is produced. Rather the output is reports of various types. The reports must be of a nature that they will be of practical use to someone (ie., evoke a practical application/response).

The facility has a strong feel of administrative duality associated with it: either civil-military or civil-communist party.

Concepts such as administration, security, psychology are associated with the facility.

The cue "key person" evoked the same blonde, round-faced man from the previous session. He has very distinctive features: his face is very soft and round, his lips and nose are thick. His hair is receding. This man is filled with a strong anger due to a sudden lack of institutional prestige for the facility. He is upset because they must now do a "better" job with less money. It used to be that they could get all the funds they wanted with little or no justification.

Interim summary:

In the building are many offices, hallways are narrow & cramped. are brown & white in color & walls ~~are~~ have a rough plaster feel.

In one area is a bright, source of radiation & ^{narrowly} focused

the heat which ~~irradiates~~ irradiates me feel like my face is burning. (AOL heat lamp, interrogation lamp, open nuclear test).

~~In the offices~~

Some of the offices are large & filled with busy industrious low level white collar workers. the equivalent of "GS-7-9s". The workspace is a crowded ~~area~~ ^{with} a typical bureaucratic lack of privacy. Concepts of administration & security.

This facility has a "SOP" i.e. a formally written out mission/mission statement. Ideas for action though don't seem to originate here but rather come from "above" - "Above" is to the northeast.

In ~~the~~ one of the rooms there is a meeting going on where men are sitting around a rectangular table discussing fiscal matters to include operating funds, cuts and concerns about the cuts.

This facility has a "paper" product, that is nothing physical except for reports is produced.

- The facility has a strong feeling of administrative duality either civil - military or civil - communist Party ..

WORKING PAPER

3 FEB 89

TASKER

1. Encrypted Coordinates: 428013/839461.
2. Tasking: Reaccess and describe the target site at the above coordinates in greater depth.
3. Required EEI:
 - a. Describe the purpose of the building
 - b. Describe any key activities supporting this purpose.
 - c. Describe the key event associated with the target (i.e. the key event of particular interest to the tasker). Remain open to the possibilities of this key event being in past, present, or future time, and also to the possibility that the event did not/is not/will not occur.
 - d. Through your own search technique, provide a set of map coordinates for the target site. Also note method used, and any perceptions gained.
