WORKING PAPER

SOI-1

Project: 8930  
Date: 890824  
Viewer: 018  
Session: 01

SUMMARY OF INFORMATION:

1. (S/NF/SK) The location of Pablo Emilio Escobar (-Gaviria): Escobar is located in a city called (phonetically: "Mont Al BAHN"). I could not get the country, but the city is rather large, is at a fairly high altitude above sea level, and is surrounded by quite steep foothills to a mountainous region.

He was, at the time of the session, located in a large, multi-storied grey building (see sketch, page 4) which has a "portico" with white "arch-stones" over each arch. He was located in an upper story (felt like 2nd story), in a multi-roomed "apartment". The windows were open for cooling the apartment, and the side of a steep hill could be seen over a few rows of buildings outside the windows. The street in front of the building has a streetcar tracks (with overhead "trolley" lines). About 2 blocks from the building, the street drops sharply over a hill. The weather is clear and sunny, but somewhat cool. The "apartment" looks very "lived-in". Escobar was in his underwear. There is a TV station. The announcer was talking about a local politician named "Munoz". There is a small sign on the side of the building which has the word "Sedilla" or "Setilla" (possibly "Sevilla"?). This sign appears to be a street sign.

2. (S/NF/SK) Associates: Escobar was alone at the time of the viewing. Another, nearby site was also viewed where it felt that Escobar expected to find people. However, at the time of viewing, I could not perceive people

there. This other area was a place in heavily wooded country where there was a lot of browned vegetation around a clearing, giving the impression that the vegetation had been killed on purpose. There was a round-topped strutted structure there with clear plastic covering, making it look like a makeshift greenhouse (see sketch, page 3). This location is also surrounded by steep-sided low mountains, but is secluded and away from civilized areas.
