SUMMARY OF INFORMATION

The threat is from behind an in front -- it comes when least expected and is delivered in person or remotely, or both. I saw gunmen and bombs attacking politicians, religious authorities, and people in authority related jobs; such as policemen, soldiers etc. The men were uniformed, well-armed and knew what they were doing. There were others behind the scenes watching and sending them after people. (AOL Signal -- Drug Lords assassinating political enemies).

*from the
warning*

*Some believe
in a
terrorist*

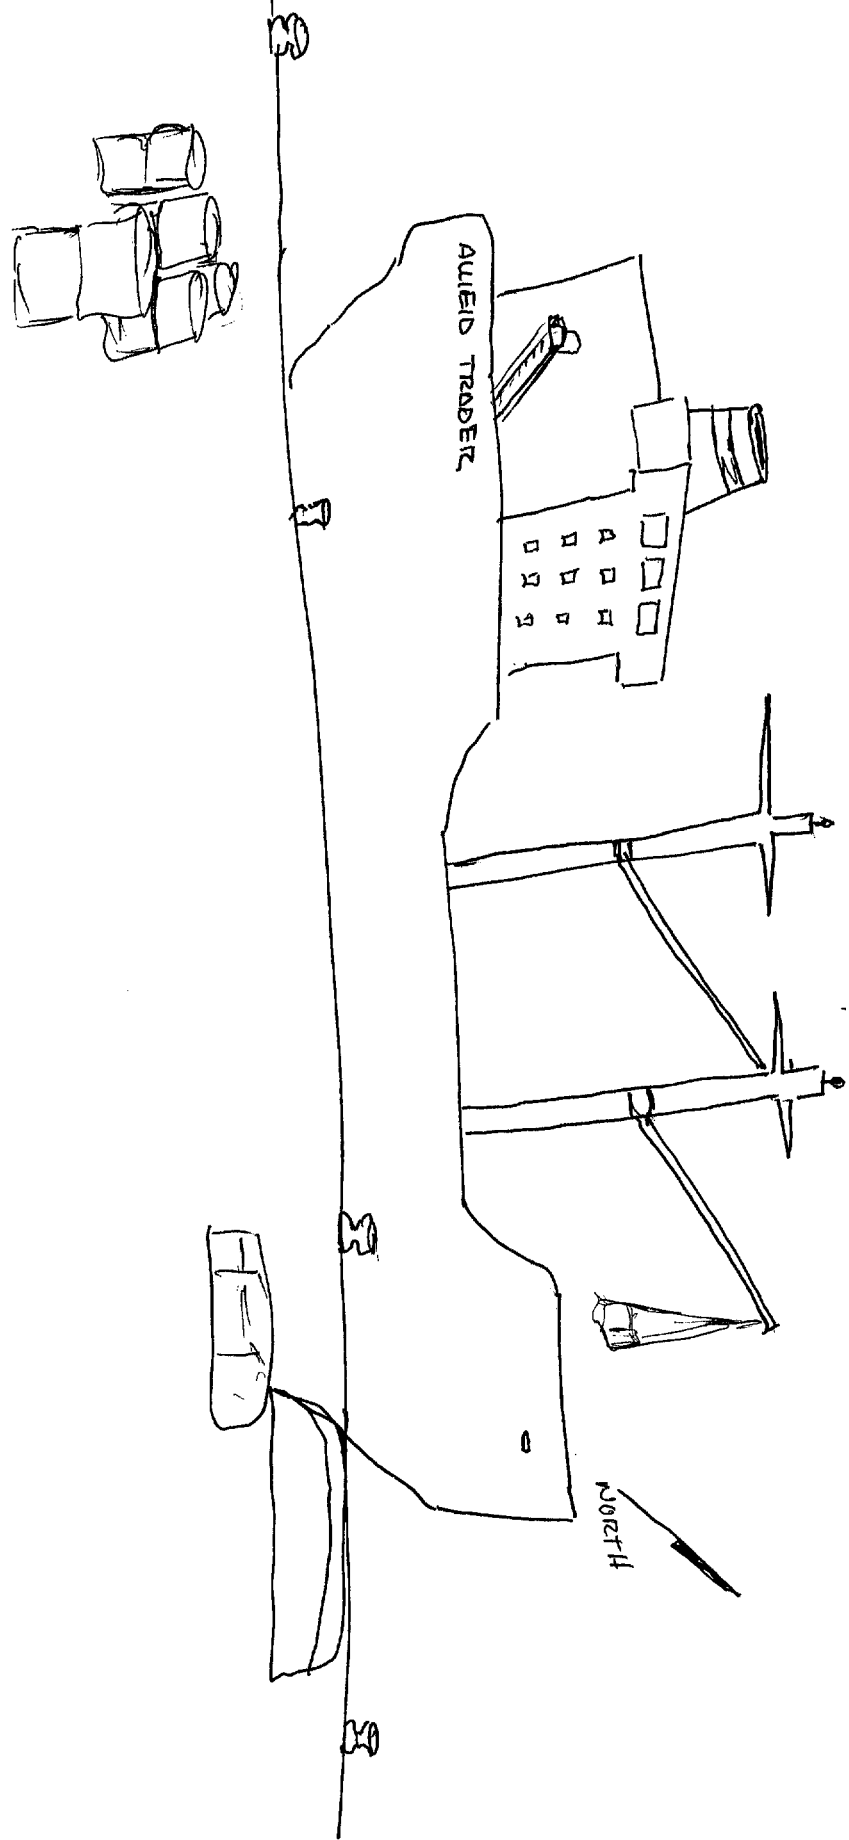

The only protection against this threat is direct intervention augmented by high security. If you wait they will find you. They are ^{people} of many nationalities and they are well-trained.

I saw a ship which is related to the area or the target area. The name of the ship was very clearly "ALLIED TRADER" (see sketch #1). The area where the ship is located is warm and sunny right now. It is anchored in salt water on a northern sea port (northern relative to the land mass).
