095 Bullet Summary

Site is a building in a fenced/walled in area. There is space between the fence/wall + the building. Part of the front of the building is a curve.

Inside of the building are two groups of people representing 2 activities. The first takes place in the front half of the building + is the "normal" activity. The second is taking place in a back room where obedient/comman people are sorting things into categories AND THEN TAKING a certain # of items from each category + packaging them for delivery. The place of packaging is the most important because distribution is difficult. There are not enough things so priorities are being established + many are getting a minimum # of things necessary.

The people in this building feel safe + are acting ~~thoroughly~~ with thoroughness.
