SUMMARY OF INFORMATION:

NOTE: Immediate feedback was given at the site, so this summary was
written after feedback was received.

1.   The site is open, sort of isolated and outdoors
     (cool and windy). It has a flat, manmade object which
     feels like concrete.   [Confirmed at site]

2.   There are trees all around, blocking the view of
     the horizon and of a tall, long, manmade object
     on the left.   [Confirmed at site]

3.   The ground rises to the right.   [Wrong. Slopes down]

4.   Directly ahead is a curved area, curving to the
     left, and there is water beyond it.   [Confirmed at site]

5.   There is a big, wide, significantly bright   [At site, but is
     yellow object which feels both natural and   actually 2 objects-
     manmade.   1 natural and 1
                                                  manmade]

6.   There is a sound connected with the site
     which is both a hiss and a rumble. The
     site is sometimes quiet, except for back-   [Airplane flew over
     ground sounds (distant traffic, etc.)   during feedback.]

SG1J   7.   There was an impression that there was someone
            in a car or truck watching █████████   [Confirmed at site]

SG1J   8.   Visual of █████ getting into a brown car
            indicated that she was driving her own car,
            rather than the company car.   [Confirmed]

SG1J   9.   Impression that getting out of the parking
            area was not straight forward, but she had
            to turn around. Area to right was "off-limits". [Confirmed at site]

SG1J
SG1J 10.   Impression of █████ being annoyed by █████
            chattering.   [Confirmed]
