13 Jul 90

Summary of Information

EEI #1: When: Between 2100 14 Jul 90 and 1200 16 Jul 90
with emphasis during early morning hours of
15 Jul 90

Where:

EEI #2: 11° 05' N 49° 10' 30" W

EEI #3: Description: see diagrams pages 7 & 8.
Target has a two tone hull and an
off white or dirty tan superstructure.
The hull is a medium shade of grey, brown
or green. A darker portion occurs
just below the gunwale in the bow.

There is a mast-like projection on the
bow portion of the ~~deck~~ deck. However,
something is peculiar about this, as if
the mast has been 1) broken off 2) broken
and repaired or 3) containing, or having
attached to it, an object or apparatus
that is not typically found on a "mast".
(see page 7)

The superstructure (see page 8) is
squarish and ^{at least} two levels high. There
are two circular black holes of round
objects on the front of the superstructure
