S E C R STIPPLED NOFORN SPECIAL ACCESS ASSURED

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 9027

SESSION NUMBER: 2

DATE OF SESSION: 16 MAY 90

DATE OF REPORT: 18 MAY 90

START:

1600

END:

1620

METHODOLOGY: SOLO

VIEWER IDENTIFIER: 095

1. (S/STD) MISSION: To describe the basement of the target structure, identified in the previous session as "accessible through a trap door", identify what is located there and whether or not the basement leads to any other place (if so, where?).

- (S/STD) VIEWER TASKING: Encrypted coordinates only.
- (S/STD) COMMENTS: Physical Inclemency reported.
- 4. (S/STD) EVALUATION:
- 5. (S/STD) SEARCH EVALUATION: N/A

SUMMARY OF INFORMATION

The cylinders described in the previous session (in the containers) are very, very smooth. Associated with them is the concept of controlled/directed explosiveness. Each cylinder is approximately 4.5-6inches in diameter and 28-36 inches in length. The end is recessed and there are raised areas: like a cylinder around a cylinder (reminiscent of a telescope). These cylinders are in concealed storage.

The main purpose of this structure is not the concealed storage of these cylinders but instead involves chemistry or the applied use of chemicals.

The basement of this structure is dark, musty, muggy and dank. It has a lower than normal ceiling of exposed beams. The basement is cramped and crowded with stacks of boxes. Access to this basement is through the floor (perhaps a trapdoor?).

TASKER

- 1. (S/STD) PROJECT: 9027 Session 2
- Source: 095
- 2. (S/STD) ENCRYPTED COORDINATES: 957376/104305.
- 3. (S/STD) BACKGROUND: You identified the target as having a basement accessed through a trap door.
- 4. (S/STD) ESSENTIAL ELEMENTS OF INFORMATION:
 - a. Describe the basement of the target structure.
 - b. Describe the contents of the basement.
 - c. Determine whether or not the basement leads to any other place.
 - d. If so, where?

Provide sketches in support of your findings.
