## E. <u>SESSION SUMMARY:</u>

SG1A The The will move between the AM of 3 DEC 92 and the PM of 5 DEC 92. I still perceive the destination to be the airport south of CHICO, WA.

SG1A There will be both radio and visual communication when the is due west of POINT GRENVILLE, which is north of GRAYS HARBOR and the city of ABERDEEN, WA.

There is the concept of an enclosed body of water reminiscent of a lagoon or pond associated with the vessel. The water is almost black and I can see the reflection of a building with a square tower on the surface.

Perceived an U/I object during Stage I (see diagram below).
