4. (S/SK/WNINTEL) Available feedback obtained during the current reporting period indicates that 011 and 079 provided relevant data on current or proposed Soviet marine technology (Project 8907). During the conduct of search (Project 8916) conducted on a worldwide basis to locate a fugitive from justice, Viewer 079 came within eighty miles from location where the fugitive was apprehended. Anticipated, future feedback should indicate if the fugitive was at the exact location pinpointed by 079 on the date and time the search was conducted.

5. (S/SK/WNINTEL) At TAB D is an example of how the recently established POG data bank is being used in the assessment of our effort. The data bank was primarily established to determine how POG is coping with training, operations, and search problems, either individually or as a group. The data can be retrieved by Project Number, Session Number, Date of Session, Numerical Evaluation Designator, Methodology, and Remote Viewer Number.

6. (U) POC for this action is the undersigned at AV 923-7829/2656 or Commercial (301) 677-7829/2656.
