PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 5138 SESSION NUMBER: 01 OF 2
DATE OF SESSION: 30 MAY 90 DATE OF REPORT: 1 JUN 90
START: 0955 END: 1430
METHODOLOGY: ^RCEV VIEWER IDENTIFIER: 052

1. (S/STD) MISSIONS: Describe the MIR space station launched in February 1986.
2. (S/STD) VIEWER TASKING: Utilizing Encrypted Coordinates 373501/641044, describe the target.
3. (S/STD) COMMENTS: No inclemencies noted. A Summary of Information (SOI) is attached to this report. 052 correctly identified the target as a structure. The use of the "T" and "I" columns, Stage IV, CRV, were emphasized. 052 appeared to have an overreliance on the S-2 columns. Every emotional impact, however slight, met in the "I" column, was reported in the EI column and appeared to interfere with work being done in the "I" column.
4. (S/STD) EVALUATION: 3
5. (S/STD) SEARCH EVALUATION:

HANDLE VIA SKEET CHANNELS ONLY

WORKING PAPER

Target #: 5138
Date: 30 May 90
Time: 0955-1430
Viewer: 052
Session: 01

SUMMARY OF INFORMATION:

The target is a structure. It is tall, narrow, vertical and has something round that is surrounding it. There are angles and a vertical connected to a diagonal. The top of the structure is pointed. The vertical structure is hard and smooth. In between the vertical and the round thing is air. The round thing is hard, smooth, jagged, not proportionate, and seems to have spots of light. Outside of the round thing is bright, hard, land. There are angles and a vertical connected to a diagonal. The top of the structure is pointed. This is a big building that is something to go and look at. There is something round that is moving in the center. There is energy at this site.

Inside the structure it is bright. There are jagged shapes like zig-zags. There are people shapes at this site. One of the two persons inside is tall, has short, brown hair, white skin, green eyes and a beard. He is wearing blue clothes. He seems to be hungry and working. He made me think of a groundskeeper. He seems to be doing research, possibly related to the energy and/or genetics. His activity made me think of someone fueling a fire with coal.
