PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 5289 SESSION NUMBER: 03

DATE OF SESSION: 30 JAN 90 DATE OF REPORT: 30 JAN 90

START: 0750 END: 0843

METHODOLOGY: SOLO VIEWER IDENTIFIER: 018

1. (S/NF/SK) MISSION: Describe the incident that took place at geographical coordinates 79655/326391.

- 2. (S/NF/SK) VIEWER TASKING: Utilizing encrypted coordinates 796555/326391, describe the incident that took place at the site.
- 3. (S/NF/SK) COMMENTS: No inclemencies noted. A Summary of Information is attached. Viewer was on line and did indeed describe object and the malfunction at the incident. Viewer however forgot to include in the report information that he received during Stage 4 1/2 which explains the damage to the object.
- 4. (S/NF/SK) EVALUATION: 2

HANDLE VIA SKEET CHANNELS ONLY

WORKING PAPER

Project: 5289 Date: 900130

Time:

0750-0843

Viewer: 018 Session: 03

SUMMARY OF INFORMATION:

1. (S/NF/SK) Further describe the target object: The inside of the object has metallic tubes/rods which are surrounded by other material(s) (see sketches, page 1 of session transcript). The object itself has a portion of the conical section which has sustained some damage (see sketch, page 3).

Either the object itself, or a related object was perceived sitting on a workbench in an upright position. This portion had a "tilted elipse" surrounding it (see sketch, page 4).

2. (S/NF/SK) Describe the event associated with the target object: The event was not witnessed directly, but was perceived from a vantage point inside the object. There was a bright point of light, followed by a great amount of heat and light outside the object, accompanied by some physical vibration and movement. One thing which caught my attention was that the heat did not "transfer" throughout the mechanism, almost as though there were no air to provide convection.

TASKER

- 1. PROJECT NUMBER: 5289
- 2. ENCRYPTED COORDINATES: 796555/326391
- 3. BACKGROUND: The target is an object.
- 4. ESSENTIAL ELEMENTS OF INFORMATION:
 - A. DESCRIBE THE OBJECT.
 - B. DESCRIBE THE ACTIVITY AT THE SITE.
 - C. PROVIDE AN OVERHEAD VIEW OF THE TARGET SITE AT THE LOCATION OF THE OBJECT.
 - D. SUBMIT SKETCHES IN SUPPORT OF YOUR FINDINGS.
